WOW YOUR SPEAKING TRAINING & MEDIA DAY

WOW Your Speaking Power in ONE Life-Changing Day 💥
Turn Your Speaking into a Superpower

(for SEVEN Leaders ONLY)

Time to ignite the full power of who you are and how you speak
and let NOTHING hold you back

This is your single greatest asset to your success

You may already be rockin' it-but what if there's a whole other level you can go to?

You may be trying to find how to break out of what's been holding you back

You may be shut down, navigating harsh voices or managing debilitating fear or anxiety or overthinking just to try to even show up to do the bare minimum and only getting so far (or avoiding opportunities altogether because of it)

Or you have an ingrained way of speaking or showing up, whether stiff, in your head, overly formal, etc, or you're ready to find your own unique, unleashed expression of your presence and message that frees you and has you WOW so you stand out, no matter what you face or have to conquer and accomplish

This, WOW YOUR SPEAKING Immersive One Day,
is where that ends
(and we mean NOW)

How might that be if you got forever freed up & experience yourself unleashed
and YOU step all the way into the power of who YOU are?

You can power ANY microphone, video, presentation or pitch
ANY time,
ANY where
No matter what.

Imagine….

YOU, standing in front of any audience—on stage, in a boardroom, or through a camera lens—and delivering your message with such flow, clarity, authenticity, freedom and power that people get inspired and can't help but take action.

This isn't just about "getting better" at speaking.

This isn't about getting tips, tricks or tools, either.

You can't read about this - you have to EXPERIENCE it

This is about activating your superpower at the cellular level that forever changes how you're perceived, how you lead, and the impact you create (and the confidence you'll feel from it)

That secret sauce is called The WOW Effect.

And you're about to own it for yourself.

🔥🌟 The WOW Effect 🌟🔥

WOW stands for "With-Out Walls"—a way of showing up any time you speak, stage, video or networking, where whatever barriers between you, your presence and your message dissolves.

Fear?
Gone.

Doubt?
Conviction becomes the name of your game.

Stiffness?
Transformed into ease, power and charisma.

It's about more than just "sounding or looking good."

It's about creating your own WOW Effect that can leave folks riveted, moved, inspired and leaping into action

It's being felt to the core beyond words, igniting lasting impact and driving powerful results—every single time you speak.

Its about YOU feeling alive, freely expressed and standing fully in your power at your best.

I'm Lynn Rose, and I have lived this. I had had my own challenges from being completely shut down, zero confidence, wracked with fears and negative harsh voices for years, to where I was debilitated.

To where, once I was able to breakthrough as can happen for you, I have spent decades touring around the world speaking or singing on mega stages, sharing the stage with superstars, expressing from my own freedom and power.

And I bring this work to those looking for their next edge to those who are blocked or held back in whatever capacity and find their own "WOW".

Its been over two decades, I've had the privilege to work with billionaires, CEOs, celebrities, and entrepreneurs who wanted to find their next level or heal the inner barriers that made doing their industry more challenging

They didn't need more tips or tricks—they needed a total shift in how they show up or to find their next level.

They needed The Power To WOW.

T**his is here for YOU, too. Once** YOU experience it, you can own your own superpower, too.

Finally, right now, I'm bringing this life-changing experience to you and 7 others at a time in our exclusive, in-studio One Day Training.

🏆Why This Works When Nothing Else Does 🏆

Most people approach speaking from the outside in: memorizing scripts, perfecting techniques, or trying to "get it right."

The problem? It keeps them in their heads.

The Power To WOW flips the script. It's an inside-out approach that:

- Breaks through subconscious barriers holding you back.
- Moves you from your head into your heart, where authentic connection and compelling conviction live.

- Creates a visceral inner shift that stays with you for life-- like riding a bike once you've found balance—so you never have to think about it again.

This isn't something you can read about.

It's not a set of tools you can collect.

You have to experience it viscerally, custom to YOU and in the right setting, led the right way that shifts that switch on for YOU.

When you do, your world changes.

💥 What You'll Experience 💥

This isn't just a workshop—it's an immersive transformation:

- **Group Exercises:** We start with experiential processes designed to dissolve any fear or blocks, ignite connection, and activate your most authentic powered speaking
- **Principles To Shift How To Rock When You Speak Every Time:** That help you tune right into that switch from what's stopping you to what has you step into YOUR own "WOW" zone - its like once you've found balance riding a bike, you ALWAYS have that in you, even years later
- **One-on-One Hot Seat Coaching:** Each participant gets custom, on-camera coaching and time in front of the in-person group - all within our 4-camera professional Hollywood studio. You learn just as much from witnessing others' breakthroughs as from your own.
- **High-Quality Media Capture:** Every moment is professionally filmed, leaving you with powerful video assets that showcase your best self.
- **Exclusive Setting:** Just 7 leaders at a time, safe-space, intimate, supportive, and judgment-free environment.

This all takes place in Los Angeles at a 4 Camera Hollywood studio for just 7 leaders only - all about to have your lives and businesses forever changed, set within a perfect nurturing backdrop for this level of life-changing experience.

🎯 The Transformations Speak for Themselves 🎯

- **An Entrepreneur (and many like him):** either having never spoken (or others who've spoken a lot but were working at getting better).

In this example, he had never even spoken before. At the training, he'd clicked into his power right away as if he'd spoken all his life. Four months later he spoke for the first time, delivering a keynote in Singapore—and blew his audience away while blowing himself away in how his WOW Effect was still part of him without even having to think about it.

This has been reported countless times by others who've gone through this work - The shift is forever with you.

- **A Professional wanting to get into Keynote Speaking:** Been doing corporate, even speaking a bit but not breaking out as leader in her industry - this gave her her edge & she burst out of corporate into her own lane, Ted Talks, Keynotes, successful expert and consulting career, etc
- **A Struggling Coach:** For years couldn't fill her programs, or much else - straight out of working together, within a month, she filled them right up with the videos created, landed high-profile media spots and grew her business to 7 figures in record time, while forever finding the most authentic, compelling, powerful and effortless way she shows up.
- **A well known GREAT Speaker:** She was already known in her industry, considered brilliant but needed her next edge - THIS is what catapulted her (& drove her media tour and book to #1 NYTimes Bestseller)
- **A famous TV Actress:** Well known for one of the most iconic TV series of our time but always managing deeply critical inner voices making her craft painful. She went from avoiding public speaking & always having to manage debilitating self-talk, to feeling unleashed, free, no longer a prisoner to those inhibiting inner voices. Within a week straight out the gate, she landed her own talk show and started accepting speeches around the world around her humanitarian work.
- **A Billion-Dollar CEO:** After 20 years of public speaking anxiety, he finally broke free and forever transformed his presence, no longer run by fear.

These aren't just one-off successes.

There's case after case like these - from booking 6 figure deals, to getting the subconscious foot off the break that has you on fire for taking action, to creating a rush to the back to buy their program when they spoke, to one who even wrote a book titled after The WOW Effect (he called WOW Factor) because of how it impacted every area of his life out of just this training and his visceral game-changing shift, along with catapulting his speaking and business.

That's what is here for YOU

They're proof of what's possible when you unlock The Power To WOW.

🥳 Who Is This For? 🥳

This experience is for you if:

- You want that edge above everyone else that's uniquely YOU and you don't even have to think about it - you just get to BE it, every time!
- You've ever felt held back by fear, doubt, or the belief that you're "not good enough."
- You sometimes are too much in your head when speaking or know you might be a little too serious, flat, stiff or dare say, boring - this brings your full ALIVENESS like you've never experienced
- You want to connect powerfully, feel free in the process, inspire action, and create lasting impact whenever you speak.
- You're ready to stand out as a leader in your industry—on stage, on camera, or in the boardroom.

Whether you're just starting or already at the top of your game, The WOW Effect quantum leaps you in the power of how you speak, taking you to your next level.

My whole business has changed from the connections you've made for me and the ideas you gave to me - WOW!

Right before my "Happy For No Reason" book media tour, I was not knowing what I was gonna say or how I'd share my message. She helped me so much! Had I not done Lynn's program I would have been a wreck but because she guided me in her incredible way I was a prepared and ROCKED it"

- Marci Shimoff,

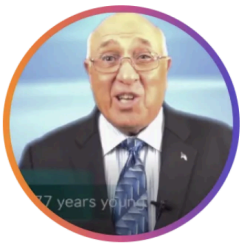
I got more from you in this ONE hour than I have with marketing teams I've hired for thousands of dollars and spent months working on a project"

- Dione,
Cordon Bleu Chef, CEO of The Fit Gourmet



I'd been spinning my wheels for 10 years, tons of events and trainings, getting nowhere. At 70 years old it was time to cash in or cash out. Lynn and her team with her Get It Done Package & guidance launched me! I didn't even have a site yet, hadn't finished writing my first book, didn't even know what direction I wanted to go in.
They helped me choose the right direction for me, strategically craft my brand and where I lead people and produced the most amazing calling card video to demonstrate. From that video alone, hot off the presses, I got a sponsorship deal and a pre-order of 100 books (even before finished!) Got an offer to appear on FOX TV & created a mastermind from it all, writing 4 more books over the next 4 years.
Changed my life!

- Arsen Marsoobian
Passed away after 4 years from his video he did with us, getting to live his passion and leaving his legacy at last

I met Lynn at NSA, was a multi-million dollar sales associate for a major company and tried to stand out in how I branded myself. Turns out I was repelling versus magnetizing. Lynn and team completely overhauled my approach, brand, messaging, positioning and nailed my calling card video. I immediately was positioned for high level consulting and events - even had a leading sales speaker ask to show my video to all his Fortune 100 clients because it so succinctly captured what our market needs. My career took off! I'm taken seriously and have developed into a whole new lane since and come on board to WOWUNOW as a featured partner now, helping transform teams and teens to stand out with confidence, as Lynn did for me that set a whole new trajectory!

EXAMPLES of how The WOW EFFECT

(the proprietary WOW Your Speaking approach)

changes everything:

PROBLEM
You aren't comfortable speaking off the top of your head.

SOLUTION

So many people in this industry feel they can only speak if they've done some predetermined amount of preparation and that they must have every word perfectly memorized. That's fine - but how about those times when they suddenly change your speech on you - or you realize that what's needed in the moment is something different than what you've prepared (that is, if you're truly going to speak into the listening of the audience or client in front of you? WOW Factor has you experience how you can have anything thrown at you last minute, how you could tear up your notes and you would not only do just as well, you'd surpass what you've ever done before and with a whole new freshness and power that you didn't know you possess. This is something that you EXPERIENCE - you don't even have to think about it - thus you develop an innate trust in your ability to nail your message each and every time - no matter what gets thrown at you.

PROBLEM
Your foot is on the brake for going for it full out - you feel not as fully motivated to pick up the phone & make your bookings or you let opportunities slip by you.

SOLUTION
The WOW Effect (WOW Your Speaking approach) has a special process for uncovering what's holding you back that's hidden from your conscious view. Not only that - but when you find your stride and have this whole new elevated confidence, powerful command, stellar results and a freedom anytime you open your mouth to speak - not just in presentations or in the media but in all your communications, suddenly you're no longer holding back on making those calls to put yourself out there - suddenly you can't wait as you so feel a fire for going for it. Suddenly your passion for your craft is lit up in a whole new way and that passion carries you as effortless motivation. It's a wonderful and amazing side effect of this WOW Factor work.

PROBLEM
In today's times people are holding back more than ever within their decisions to work with you or hire you or take on your services. You're struggling to figure out how you can differentiate yourself from the rest - how to stand out so you get your best results and cut through all the static to be heard at the deepest level.

SOLUTION
The WOW EFFECT (the WOW Your Speaking approach you'll master once you've gone through this) amplifies who you really are and what your core power is and the power of what you can deliver thru the power of how you speak about what you do and offer.
You're no longer trying to be anything else but yourself and you discover how to take the magic of who you are and magnify your connection - so that you make profound, deep, instant and powerful impact, every time, no matter

PROBLEM
You're newer to this and feel you don't know where to begin nor do you trust yourself to deliver powerfully like you'd like to and how you need to.

SOLUTION
The WOW EFFECT has taken people who've never spoken before, ones who've been at the extreme of fearful, closed down, nervous, unsure, feeling lesser-than and at the end of two days finding themselves speaking with command, powerful connection and truly finding THEIR voice - what's authentic to THEM and not some template to follow.
Once you have this core foundation to
come from, you can take on ANYTHING in the world of presentations, sales, speaking or being in the media.

PROBLEM
When you speak you've received feedback that you're too stiff or rigid and even, too serious - this doesn't bode well for connecting with your clients or audience.

SOLUTION
The WOW EFFECT has an element of its interactive processes that breaks up all rigidity, breaks down the walls of being too serious and gives you a whole new level to play at. You literally come alive and your personality that is unique to you shines in ways you never knew possible. Not only that, but WOW has a secret ingredient that happens later in the day where, depending on where appropriate, humor is instilled within what you do (naturally by the way) and it amplifies your presentation in ways you never thought possible for yourself.

PROBLEM
You're frustrated because you feel your message isn't getting across or making the impact you want it to make - even with all the various experts' guidelines for better closing or structuring a perfect speech - its not been hitting the mark you want to make and what you know you should be capable of.

SOLUTION
That frustration disappears at the end of this immersive studio day.
You'll have hands-on guidance with you personally that has you make that click and that quantum leap shift so that you have that absolute knowing that whenever you hit a stage, face your clients or are in the media your message will cut through high and above all the rest -

ESPECIALLY because you will know that YOU are your message and you own your presence, your command of your communication and finally get the results you've been looking for.

PROBLEM
While speaking and/or communicating your message, you're stuck in your head, wanting them to like you, doing your best to control how it comes out and caught in worrying about getting it right, will it come out okay' are they getting it?' "Am I saying it right?' "Oh god I hope I don't screw it up", etc.

SOLUTION
The WOW Effect takes all the focus out of the 'head' and all its concerns and barriers to your connection and has you master speaking from your heart.

With that comes the natural freedom of no longer being so concerned about whether you're saying it 'right' or not. Instead, you will have an INNATE trust in who you are and how you communicate so that it pours out of you in a natural way that makes a powerful impact - EVEN if you don't say the words absolutely perfectly. THIS gives you real freedom in your speaking.

PROBLEM
You're a professional, you do well but you know you can go to another level - just don't know what that is or how to get there and you know its not going to come from yet another technique or any more information - its an 'inside' job

SOLUTION
The WOW Your Speaking approach (aka, The WOW Effect) comes at your speaking and communication from the inside out. With its experiential approach and its expertly designed processes, you don't have to effort at figuring out how to improve or how to make better impact - it happens naturally. Add to that Lynn's expert guidance where her brilliance lies in knowing exactly what needs to be drawn out from underneath the surface and how to have that explode forth in the moment for you. Miracles happen in these two days and you'll feel the joy to be a part of this deep, profound work - as all other WOW Factor participants have shared as well.

PROBLEM
The thought of speaking or making presentations always gives you butterflies
- for some, even severe anxiety and you'd love to no longer be tortured by these fears and/or doubts.

SOLUTION
When you get the WOW Effect, you learn how to master any nerves, fears, doubts or worries and stand in your power NO MATTER WHAT - and you do so at a cellular experiential level so this ability to shift in an instant becomes part of you.

In Just One Day, Unlock the Power of Your Speaking from the inside-out so you WOW every time no matter what - Captivating, Compelling into Action, and Driving Results

Imagine standing before any audience—whether on stage, in front of a camera, or in a boardroom—and feeling not just confident, but fully alive. No fear, stiffness, overthinking, judgmental voices, NO boring.

Pure connection, passion and WOW flowing through you, making your message unforgettable.

For the past 15 years, I've guided billionaires, executives, celebrities, entrepreneurs, and thought leaders to unlock this magic. Not through theory or technique, but through a transformational, *visceral* inside-out approach that can't be learned from books or checklists.

You *have* to experience it to find and unleash your unique WOW.

Once you do, it becomes part of who you are—effortless, automatic, and unshakably powerful.

What is the WOW Effect?

Just fully you, feeling freedom and power onstage like you've never experienced, fully expressed, delivering your message in a way that commands attention, ignites action and leaves lasting impact.

Why This Works

Most people speak from their heads, crafting every word, worrying about "getting it right," or playing it safe. The WOW Effect moves you into your heart—into true connection. From there, your words flow more powerfully than anything memorized. You'll speak with charisma, conviction, and passion that's uniquely yours.

This isn't just about sounding good. It's about being so *real*, so *alive*, that people can't help but feel you, follow you, and act on what you share.
