Congrats to Ryšard Zablocki in NHB+/FF on showing up, learning, growing, and implementing to reach a $76,000 day yesterday!

If you read the post I made a week ago here on "high ticket lead testing".

We used this concept in his offer, and it's absolutely crushing it as you can tell here:

Alen

p.s. I haven't been sharing our wins lately here due to being busy on the NHB platform and the help market, but will be posting them on a regular to infuse optimism into the game.

Ryšard Zablocki Yesterday at 6:25 PM

launch update: few hours into the launch, we did $76k so far. Excited to get it going into the cold to really explode it. With features from Drake, 2 Chainz, Lil Yachty and Desiigner should be very good. Oh and thanks for that "first in line" ticket idea, 16% of those $10 sales convert into full pack purchase so might need to change the entire strategy to revolve around this lol

Hey, Rappers & Singers! 👋 Stop wasting time going through tons of average beats that never match your style... This is what you've been searching for all these years...

Let me know if this sounds familiar...

Step 1: you just got a dope idea in your mind that would make people go crazy
Step 2: you start looking for beats that would fit your flow perfectly
Step 3: after a couple of hours of sifting through hundreds of "meh" beats you already lost that drive and excitement you just had
Step 4: that "crazy" idea never came to life and you move on to another one...

The vicious cycle continues and your creative potential is never fully fulfilled...

Does this sound familiar?

Let me guess... This is NOT what you "signed up" for...

The goal was simple: create dope music and fulfill your passion

...it's just not working out as it should

So what if I offered you to get 12 GB of industry-quality beats directly from a multi-platinum producer...
✅ with commercial rights
✅ completely untagged
✅ high-quality MP3s
✅ no strings attached

So you can instantly get in the flow, record your "crazy" ideas and finally start to fulfill your creative potential...

Would you take me up on that offer? 🤔

We've worked with big artists such as Snoop Dogg, Tech N9ne, 50 Cent, Rick Ross, and others... (I'm sure you know at least one of those)

...so you should be confident you're getting TOP quality beats.

I know you're probably tired of producers promising the world and delivering virtually nothing...

So I'm taking all of the risk away and giving you 12 GB of my TOP beats for you to record on...

All you have to do is click the "Learn More" and claim your beats for NOW!

See you there! 👋

Attention Rappers & Singers 👋 Let me know if this sounds familiar...

Step 1: you just got a dope idea in your mind that would make people go crazy
Step 2: you start looking for beats that would fit your flow perfectly
Step 3: after a couple of hours of sifting through hundreds of "meh" beats you already lost that drive and excitement you just had
Step 4: that "crazy" idea never came to life and you move on to another one...

The vicious cycle continues and your creative potential is never fully fulfilled...

Does this sound familiar?

Let me guess... This is NOT what you "signed up" for...

The goal was simple: create dope music and fulfill your passion

...it's just not working out as it should

So what if I offered you to get 12 GB of industry-quality beats directly from a multi-platinum producer...
✅ with commercial rights
✅ completely untagged
✅ high-quality MP3s
✅ no strings attached

So you can instantly get in the flow, record your "crazy" ideas and finally start to fulfill your creative potential...

Would you take me up on that offer? 🤔

We've worked with big artists such as Snoop Dogg, Tech N9ne, 50 Cent, Rick Ross, and others... (I'm sure you know at least one of those)

...so you should be confident you're getting TOP quality beats.

I know you're probably tired of producers promising the world and delivering virtually nothing...

So I'm taking all of the risk away and giving you 12 GB of my TOP beats for you to record on...

...those are all of the symptoms of anxiety many high performers have...

...and unfortunately, this is also what stops many from reaching their full potential and living their best life... 🚫🏆

Usually, high-performers rely on traditional methods of dealing with anxiety...

...therapy sessions, endless motivational videos, expensive pills, breathing techniques, meditation, positive affirmations, or any other long-winded treatment plans... 😩

...but the problem with those is that they either...

...require a long time to see change... ⏳
...cost a lot of money... 💰
...simply don't really work... ❌

...or all of the above...

But there is another way... 💡

...a new way that is fast, effective, and free once you learn how to do it... 🚀

...this is the hypnotic protocol I've developed over the last 5 years which already helped thousands of high performers get rid of anxiety and allow them to live their best life... 💪
