Abstract (Calibri 10 Bold Center)

This article illustrates preparation of your paper using MS-WORD (.doc or .rtf). Main text typed in two columns (67 characters), except title and abstract in one column. The manuscript should be written in English. The length of manuscript should not exceed 10 pages including table and figure in this format using A4 paper single space. The text should be in the margin of 3 cm up, down and left side, 2.5 cm on right side. Abstract includes the purpose of the service, the method of service, and the impact of the service in one paragraph of the *essay*. No citation in abstract. Abstract should not exceed 200 words. Keywords typed after abstract. (Calibri 10 Justify).

Keywords: manuscript, English, format, 5 words maximum (Calibri 10 Left)

INTRODUCTION (Calibri 10 Bold, Left, Capslock)

All manuscripts are reports of community service activities carried out with scientific principles. The scientific rules referred to an explanation of the methods used and prioritizing reporti on the impact of the activities. Articles must be written in English and manuscripts may be submitted for consideration as community service outcome reports.

The introduction explains the background of the problem, the study of literature and objectives of community service. Some initial introduction paragraphs explain the problem and background to these problems (Dean, 1990). The next few paragraphs explain the study of literature that contains recent knowledge development which is directly related to the issues. The last paragraph of the introductory section contains a description of the objectives of community service. (Calibri 10 Justify)

MATERIAL AND METHOD (Calibri 10 Bold, Left, Capslock)

This section describes the types of methods (qualitative, quantitative or mixed-method) with details of methods of data collection and data analysis(. This section also describes the perspective that underlying the selection of a particular method. (Calibri 10 Justify)

RESULT AND DISCUSSION (Calibri 10 Bold, Left, Capslock)

This section contains the results of the analysis and interpretation or discussion of the results of the analysis. Part of the results community service be integrated with the results of the analysis and the results and discussion are not separated (Vander *et.al*., 2001).

Discussion focuses on interpreting data and explaining the impact of community service so others can replicate it in developing and promoting community.

Table

Table should be submitted within the manuscript and in separated file of *Microsoft Excel* (xls.). Table whould not exceed 8 cm (one column) and 17 cm (two columns). Table should be embedded in different page after references.

Table should be numbered in sequence. Table title should be brief and clear above the table, with uppercase in initial sentence. Vertical line should not be used. Footnote use number with colon and superscripted. Symbol of (*) or (**) was used to show difference in confidence interval of 95 and 99%.

Figures

Figures should be in high resolution and well contrast in JPEG or PDF with the following conditions:

- Monochrome image (line art), figures of black and white diagram (solid/no shades of gray), resolution 1000-1200 dpi (dot per inch).
- Combination Halftone, combine figure and text (image containing text) and coloured graphic or in grayscale format. Resolution 600-900 dpi.
- Halftone, coloured figure or grayscale format without text. Resolution 300 dpi.
- Black and white figure should be in the grayscale mode, while coloured figures should be in RGB mode.
- Figure should not exceed the width of 8 cm (one column), 12.5 cm (1.5 columns) or 17 cm (two columns).
- Figures title typed clearly below the figure.
- Figure with pointing arrow should be grouped (grouping).
- Figures were recommended in black and white.
- Legend or figure description should be clear and complete. If compressed, the figure should be readable.
- Statistic graphic should be supplemented with data sources.
- If the figures come from the third party, it should have the copyright transfer from the sources.

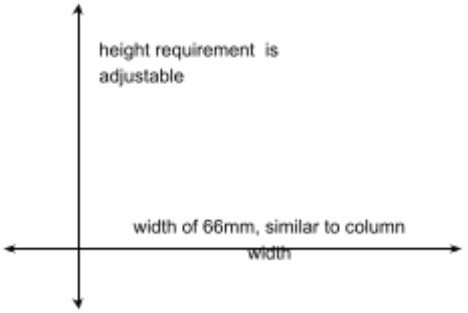

Figure 1. Illustration of Dimensional Figure of one column width. Figure dimension adjusted to the width of one column. Name the figure (diagram) written below the image. (Calibri 9 Justify)

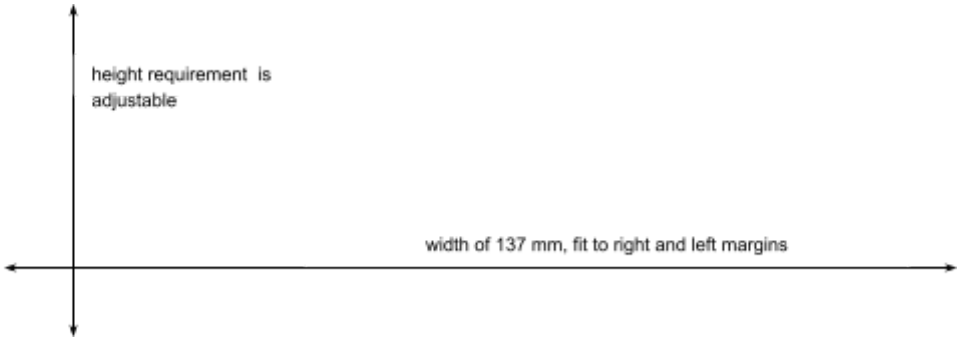

Figure 2. . Illustration of Dimensional Figure of two column width. Figure dimension adjusted to the width of two columns (137 mm). Figure were align top or bottom of the page. (Calibri 9 Justify)

IMPACT OF ACTIVITIES(Calibri 10 Bold, Left, Capslock)

Impact of Community Service Describes solutions to actual problems occurring in society that have been resolved. The impact of activities is a description of before and after the activities are carried out, this must be included in this article (Calibri 10 Justify).

CONCLUSION (Calibri 10 Bold, Left, Capslock)

Conclusion of the service results are written in brief, concise and solid, without more additional new interpretation. The impact of the service should also be included in this section. (Calibri 10 Justify).

ACKNOWLEDGEMENT (Calibri 10 Bold, Left, Capslock)

This section describes gratitude to those who have helped in substance as well as financially. (Calibri 10 Justify)
