Bird of Prey Studio - Standard Privacy Policy

This Privacy Policy applies to the following Apps distributed via Google.Play:

Irish Tin Whistle Tabs (https://play.google.com/store/apps/details?id=studio.birdofprey.irish_tin_whistle_tabs), Ocarina Tabs (https://play.google.com/store/apps/details?id=studio.birdofprey.ocarina_tabs_12h), Recorder Tabs (https://play.google.com/store/apps/details?id=studio.birdofprey.recorder_tabs), Harmonica Tabs (https://play.google.com/store/apps/details?id=studio.birdofprey.harmonica_tabs).

These Apps do not collect nor store user-sensitive information.

These Apps provide in-App purchases and subscriptions. They are implemented using the standard in-App billing APIs by Google. The Apps may cache at the device the data about active purchases and subscriptions, but they don't use user billing data in any way beside passing them directly to Google APIs.

These Apps request various permissions to access camera, microphone, etc. on the user devices. They do not use access to these services. The access is requested, because it is a requirement of 3-rd party libraries being used, which implement multimedia reproduction and recording in the same module, thus demanding a full access to the device media capabilities in order to be used in an App. Only the sound reproduction feature is used.

Although we make our best to protect privacy of the end users, our Apps come with no guarantees, and we are not liable for any damage caused by our Apps or 3-rd parties code being used within them.
