Investing Made Simple *for Kingdom Women*

Live Group Coaching with Carolina Martinez, ChFC® · @Cashflowwithcarolina

What if your money was finally working as hard as you are?

You've mastered making money. But making money and keeping it — growing it, compounding it, making it work while you sleep — are two completely different skills. Most of us were never taught the second one. That ends here.

Does this sound like you?

You keep saying you'll "get to" the Roth IRA and 529 — but later never comes
You've handed it off to an advisor or assume your husband handles it
You Google investing at midnight and close the tab more confused than before
Money conversations with your husband feel heavy instead of exciting
You want to teach your kids about money — but don't know where to start

God didn't give you stewardship so someone else could handle it *for you.*

One of my clients told me she couldn't believe how simple investing actually was once someone broke it down for her. She said she couldn't believe she had been pushing it off for so long. That's what happens when we finally have the right guide. You can't steward what you don't understand — but once you do? Everything changes.
