🚀 AI Shorts Repurposing Machine

Turn One Script Into 3 Platform-Ready Posts With One Prompt

🧠 What This Upgrade Does

Creating short videos is good.

But smart creators repurpose content across multiple platforms.

The problem?

Each platform requires slightly different:

- captions
- hooks
- style

• hashtags

This system solves that instantly.

You paste one script or video idea.

The prompt automatically converts it into platform-optimized content for:

• TikTok
• YouTube Shorts
• Instagram Reels

One script becomes three ready-to-post versions.
