BPS Animation Collab

Hey everyone, Mont27P here with the sixth collab for the year.

General

Theme: **ENCHANTMENT**
Deadline: **December 24th**

Overview: Create a short 10 second animation where your entry is visually showing some kind of unique and creative enchantment in action. This could mean taking the existing enchantments in-game like knockback, thorns, flame, etc and exaggerating them in any way you like(E.g. Knockback - shooting someone 100 blocks away). Or you could create an enchantment power of your own, like (Duplication, or whatever. As long as you are clearly trying to show some kind of enchantment on a piece of armour, a tool or weapon, then you can get creative as you like.
You don't NEED to have the enchantment effect shown if you don't know how to create it, although it would be preferable so things are shown clearly. I'll also link an old tutorial for anyone that uses Blender and wants to know how to create the effect. However feel free to create your own design or use another tutorial: https://youtu.be/OjuwPejI7ME

Any animation software, characters and rigs are ok. 2D & stop motion entries are also ok.

Additional Guidelines:
No watermarks on the video please.
No super-loud or "ear-rape" sounds.
Do not use an empty "flat land" set.
Make sure your scene has enough light, don't make it too dark!
Keep things appropriate (e.g. no blood/gore).
Please try to avoid having text in the lower left as that is where your credit name will appear. Anywhere else is fine.

Failure to follow any of the above instructions and guidelines may result in **DISQUALIFICATION**!

I will respond if something is wrong and needs to be fixed. However, I don't reply to accepted entries, so check your emails regularly. If I haven't replied within 2 days, I most likely accepted your entry.

I'll be updating this spreadsheet to show who has been accepted. If I accept your entry, you can find your name and details here. If you don't see your name appear here after a while, feel free to email me again or make sure to check your emails to see if changes need to be made.
