Information about the saunas

There are 2 saunas for Strix and Pax:
-**Strix** is located in the basement of Strix A (near the laundry room).
-**Pax** is located on the first floor of Pax 1-3 (near the laundry room).

To book the sauna you first need a membership. With no membership - your booked sessions will not be granted. To become a member you need to read through the sauna contract and pay a one-time deposit of **250kr** and a one-time fee of **30kr**. In total **280kr**.

Only people who live in the area Pax and Strix can become members.

HOW TO BOOK THE SAUNA

LOCKBOX:

Getting started:

1. Download the app Master Lock Vault
2. Once your membership has been processed, you will receive a sign-up link from Master Lock Vault to your email adress.
3. Follow the instructions given in the email and create an account.
   Our organization-ID is paxstrixsauna
4. Book through our booking page (see below)

How to use your booked slot:

1. Locate the lockbox in your respective area during your booked time slot.
   a. Pax: outside of Pax 1.
   b. Strix: by the mailboxes at Strix A (Strix B and C should have access to the main entrance), near the elevators:

2. Click on the blue key on the app to open the lockbox:

3. Once the lockbox lights up green you have 5 seconds to open it.
4. Take the key and enjoy the sauna!
    a. Pax: sauna is located in Pax 1, enter the door by the elevators and it is at your right - next to the exit door.
    b. Strix: Take the elevators down one floor at Strix A. The sauna will be located directly in front of you as you exit the elevator. *For those who don't live at Strix A, the key to the sauna works for the elevator as well.*
5. Make sure you put back the key in the lockbox **before** your slot ends. You will **not** have access to the lockbox as soon as your booking time (2h 55m) is over. Make sure to put time aside to clean after yourself after using the sauna.
6. Make sure that the key is back in the lockbox and that you close it properly. We can see the usage history of the lockbox and if a key gets lost, the last user will be held responsible.
