ACKNOWLEDGEMENTS

I deem it a unique opportunity and proud privilege to record my profound sense of gratitude, ingenious regards and indebtedness to my beloved supervisor Dr. Pushpa Biruly (Reader and HOD of Zoology), S.R. college Baliapal, balasore for his guidance, encouragement, constant support throughout the entire study period I of investigation and manuscript preparation. The unique opportunity That I have got to work under him will be pervading memory throughout my academic Career and live ever.

I am extremely grateful and extend my sincere thanks to Dr. Pushpa Biruly Zoology S.R. college Baliapal, Balasore for his whole hearted support and constant supervision throughout this study.

My sincere regards are due to the member of zoology Lecturer Dr. Pushpa Biruly for their encouragement and valuable advice during the entire study period.

I am also very grateful to Mr. Santiranjan Pradhan (demonstrator) and my friends and senior brothers sister, who have helped in so many ways during the field study work.

More than anyone, I would also convey my heart thanks to my beloved parents, they have been there all the way, and whenever I progress in any field of my life. They have been my rock and support. Thought everything, they always encourage my life to keep going and never to quit.
