- Committee Dynamics
    - Attendance
        - **Student Orgs**: Haven't met yet. Concerned about peoples' willingness to come to meeting. Hard to know who will be showing up, especially seniors.
        - **Academic Affairs**: Zanir, Fatima, Madi were whole committee until Eunice joined. Before it was just Zanir and Matt, with calls. Doesn't want people to just do minimum. Fatima didn't show up to first meeting, but Facebook message might not be best way to meet. Willing to call people 50 times to get them to come, will use their numbers and group chats to get them to come. Setting a Friday deadline for meeting or not.
        - **Finance**: No seniors on committee, small, folks showing up. Don't meet that often so attendance issues not bad. If 2 people say they can't meet, they just meet online.
    - People's contributions
        - **AA**: Splitting up work on humanities resolution with committee members for first major projects. Want it to be that student body doesn't appreciate that we keep putting Humanities Center and other humanities departments under review. Can't say we value humanities when we push it. Making humanities better.
    - Interpersonal dynamics
        - AA, SO, Finance: Positive in each committee.
    - Class Councils?
        - Everything good in Sophomore Class, Junior Class.
    - HSS:
        - Whether it should be one or two committees, depends on the year. You've got Mollin and folks on sustainability, Pavan and others on health.
- SGA Discussion on Funding
    - Healthy Hopkins
        - Should have had more discussion, surprised it passed based on folks who were there. Lot of folks left who were going to vote against it.
    - SGA Presence
        - Social capital: Do we keep posting about SGA and let people know what ew're doing even ife we annoy people, or do we do 1 or 2 things?
        - Sophomores doing 21Takeoff, but only got 1 person willing to be in spotlight. They now have 250 follows (compared to SGA's 275).
- GBM Dynamics
    - Conflict, Interruptions, "Mansplaining"
        - Yes, male SGA members are interrupting female SGA members both in GBM and committee members.
            - Certain individual makes aggressive comments and expects meetings to be short and for others not to be aggressive to them. Needs to understand there are responsibilities.

        - Seating people to reduce it, put responsible/quiet people next to conflicting/interrupting people to guide/mentor them.
        - Stricter following of Robert's Rules.
        - Chairs will be more stringent in stopping people from cutting off others.
    - People Leaving
        - Reiterate attendance policy, that attendance points will be taken off for just leaving without saying anything.
    - Questions
        - Could have been asked beforehand. At minimum, should tell people to skim things. **2 min to skim the bill**, then questions, to encourage bill reading.
    - Moderated Caucus
        - Will always do mod caucuses. People can "book" first couple responses on mod caucus
    - Agenda Packing
        - Should be more purposeful in how we schedule things. Should push more contentious things to the front. Will engage people more.
        - Could we put critical stuff that just needs to be done at the end, so it definitely gets done?
    - WaterHop, WaterGilman #insidejoke
