## Worksheet 6. Document Data Analysis and Interpretation Plan. See Toolkit Slides 50–52 for more information.

After you have determined your study design, you need to document how you will organize and analyze data.

| Evaluation Question | Data Type | Analysis Proposed | Output Initial Ideas |
|---|---|---|---|
| What services are patients utilizing?<br>Are there differences in utilization by engagement? Demographics? | EHR utilization data | Per member, over time period XX to YY:<br>• Rate of emergency department utilization and hospitalization<br>• Rate of primary care utilization and specialty medical services utilization<br>Utilization trends by length of engagement in program (utilization before engagement, at three months, six months) and by patient characteristics | Excel tables<br><br>Graphs of utilization trends and Excel tables |
