Activity 2: Survey

A survey asks people a question and records their answers. Let's survey our class!

1. **Ask:** "How did you get to school today?"
2. **Record:** For each classmate's answer, draw one tally mark in the matching column.
3. **Count:** Count the tally marks in each column. Write the totals at the bottom.
4. **Discuss:** Which way did the most students travel? Which way did the fewest students travel?

Walking	Driving	Bike	Train	Other

What is the most common way students in our class get to school?

Write about how you got to school today.

I get to school...

I stay safe by...

Today, I learned...

Compare and contrast how you get to school with how someone else gets to school.
