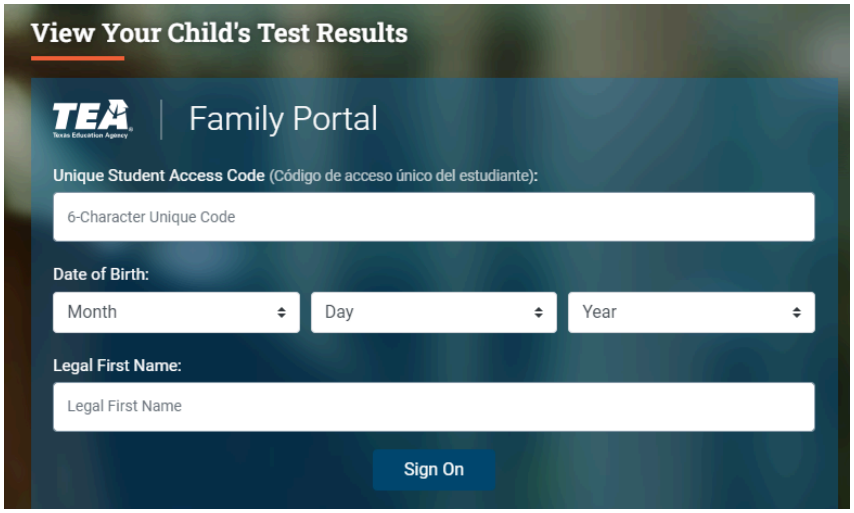
Accessing Student Test Results in the TEA Parent Portal

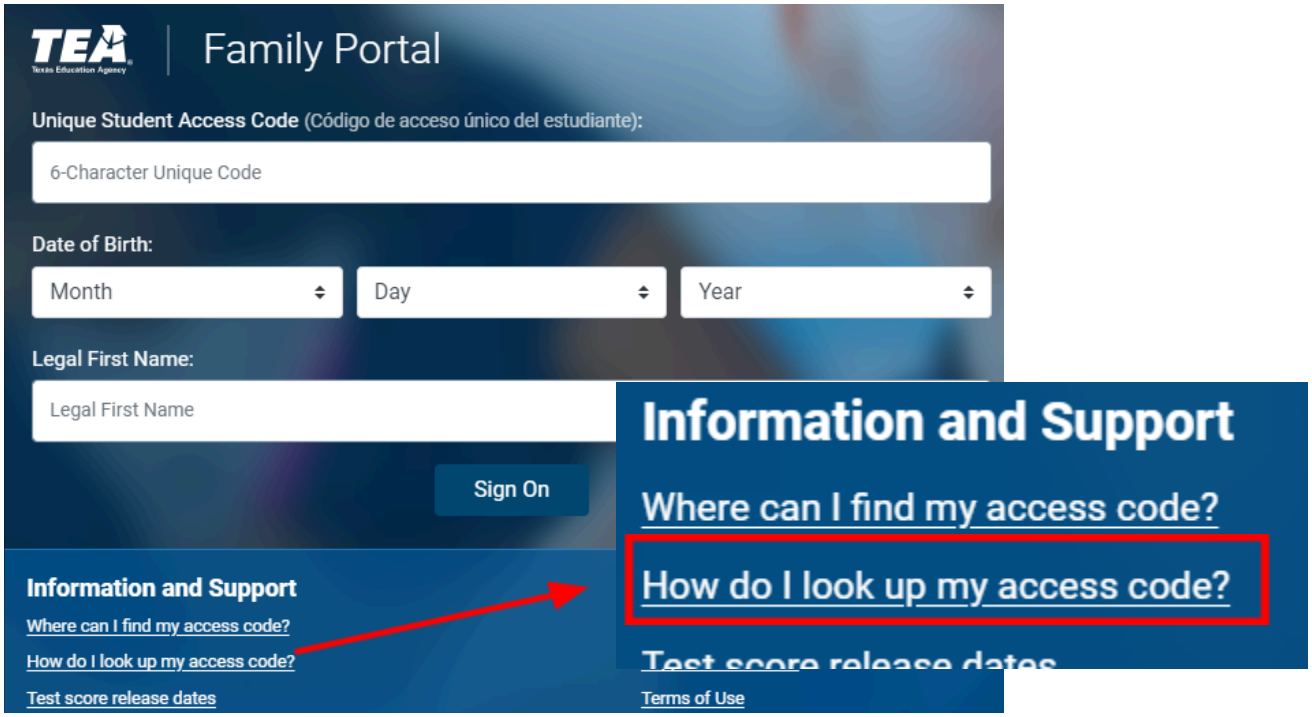
STAAR, TELPAS, TELPAS Alt and STAAR Alt 2

Go to www.texasassessment.gov

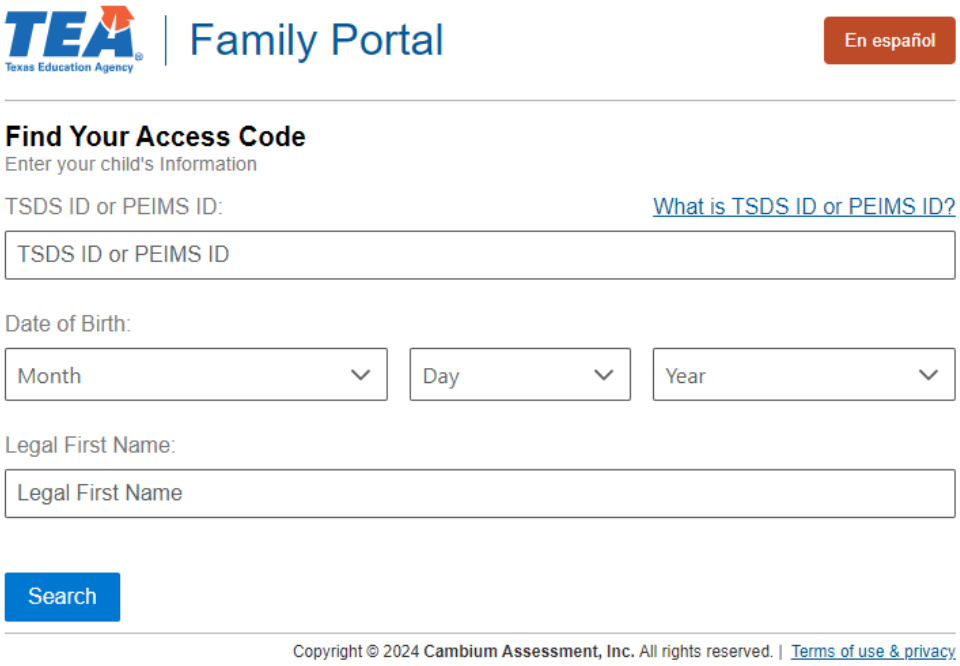
If you know your student's unique access code, enter it into the space titled 6-Character Unique Code (your child's campus can provide the access code to you). Then enter your child's date of birth and legal first name into the spaces provided and click Sign On. See below.



*If you **DO NOT** know your student's unique access code*, scroll down to the link "How do I look up my access code?" as seen in the red box below.



On the next screen, you will need to enter your student's TSDS ID or PEIMS ID, student's birthdate and legal first name. *The PEIMS ID is usually your student's social security number, or the state issued number that begins with S: "S12345678."*



If you are still not able to access your student's results, please contact your student's school. *The State Assessment office is not able to give out confidential student information.*
