35	Vipul Rana Associate General Manager- HR Deccan Fine Chemicals (India) Private Limited	Gujarat	Every year in Ankleshwar Taluka 800-1000 people diagnosed with TB, with local there are several migrated people are staying in Ankleshwar due to Industrial Area. Many of them are unskilled getting daily wages, and their economical background are very poor. TB usually affects the most economically productive age group of society resulting in a significant loss of working days and pushing TB patients further into the vortex of poverty. Although the efforts of the government are yielding significant results, the community and the institutions in the society can play a critical role in filling gaps and addressing social determinants, thereby contributing to the national goal.	We feel highly motivated for contributing towards the well-conceived and implemented TB Elimination Program and play our role in the elimination of TB	Along with Medicines, Govt. Shall provide Supporting nutritions rather than paying cash to the patients.
36	Mr. A Indra Kumar Chairman & Managing Director Avanti Feeds Limited 	Gujarat	The corporate and Social responsibility of the organization leads by the Govt initiative toward the eradication of TB from India	we are delighted and proud on becoming part of this Nikshay Mitra National Drive	More awareness needs to be created for our nationals to come forward and get their health checkup completed. So, who needs TB treatment will be screened from the population Like the Covid-Vaccination drive which was completed very fast. This can be done by social media, TV, Radio mobile ring, etc
37	Suman Srivastava Chairman Suman Foundation 	Uttar Pradesh	The Governor of UP Mrs. Anandiben Patel motivated me to become Ni-Kshay Mitra. Many NGOs were invited to Mahadeva Auditorium, Barabanki where the speech of our respected Governor inspired me to make our nation TB free.	I am feeling spiritually satisfied after becoming Ni-Kshay Mitra. I feel that I am contributing to my nation. And I believe that one day our mission of TB Free Nation will be completed.	There must be proper arrangements for the Food, Medicine, and Cleanliness of TB patients. Time to time health checkups like weight is necessary. Patients should not feel bad about their disease. They must be taken care of with love and make them feel confident.
