The title must fit on two lines (Verdana 20 pt, bold, Style: Title)

Author 1 (First name and Last name), Title (see Summary) [1]; Author 2, Title 2 Verdana 10 pt, Styles: Author / Superscript) [2]; Author 3, Title 3 (leave a space character between superscripted number and author's title) [3]

[1] Organisation 1 (name of the organisation only), Country
[2] Organisation 2, Country (Verdana 10 pt, Styles: Author / Superscript)
[3] Organisation 3, Country (leave a space character between superscripted number and organisation)

Summary

The abstract should include the purpose, method, results and conclusions of your study. It should be less than 100 words. Please don't state too many research backgrounds in this part.

Key words: Building physics; Energy performance of buildings; Fire resistance of timber structures; Structures and materials. (3-7 keywords are required, must fit on two lines)

1. Introduction (Subtitle 1 Verdana 14 pt, bold, para forward 12 pt / after 6 pt

1.1. Subtitle 2 (Verdana 12 pt, bold, para forward 6 pt / after 6 pt)

Your submission must be in English and should report new previously unpublished work.

The Proceedings of the 4. Forum Wood Building Baltic 2024 conference will be published in two forms:

- Extended abstracts in printed proceedings of Forum Wood Building Baltic 2024: The printed Proceedings will be issued in the black and white in A4 format;
- Electronic Full papers in electronic proceedings conference homepage (voluntary in practice track). The extent of the Full papers is limited to 10 (2+8) pages while even number of pages is required. File size should not exceed 10 MB, figures and charts can be colour.

Both extended abstracts and electronic full papers will be subjected to a review. Please keep in mind, that the paper can be published only after purchase of the registration fee.

2. Methods

The total length of the **extended abstract**, including figures and all references, is limited to **two A4 format pages** (all types of contributions - plenary, invited, contributed oral lectures as well as for posters). Please follow the requested format of the abstract template. Papers and oral presentations should be written in correct British English. The editors are not expected to do any reformatting to the final papers. In addition, papers should not include any kind of commercialism.

The abstract must be uploaded in electronic form via conference website ("abstract submission" link – Conftool environment). The submitted abstract must be a Microsoft Office Word file (*.doc, *.docx).

3. Results and discussion

All submitted abstracts will be reviewed by the Local Organizing Committee / International Scientific Committee. Based on their quality and relevance to the conference topics, the abstract will be either accepted for publication or rejected. The Book of Abstracts will be distributed to the participants at the registration both in hard-copy and electronic versions. 10-page articles will published in electronic version.

Scientific committee will select the best papers and will propose to write a full scientific article (extended article from conference publication) after the conference (27.2-1.3.2024).

After receiving these articles, Scientific committee will go through the review process. Articles will be published in autumn 2024 (or even later if needed).

Figures in can be coloured, but extenced abstract in printed proceedings will be printed in black-and-white. This should be taken into account in choosing the pictures and in chart formatting. In addition, the colours of figures should not be referred to in the text. The resolution should be 200 × 200 dpi for photographs and 300 × 300 dpi for drawings, which are inserted as pictures. Figures should be clear also when paper is printed in pdf format.

4. Conclusions

Summarise the main observations and research results without repeating previously written text. Try also to present concrete advices for companies and researchers in the construction field, on how they can take into account and apply your results.

Thank you very much for making your efforts to compile this paper. We do believe the 4. Forum Wood Building Baltic 2024 conference will be a fruitful event for all authors as well as visitors.

We are looking forward hosting you in Tallinn!

5. Acknowledgements

The last first level heading should be Acknowledgements. It is appropriate to acknowledge the study participants for their time and contribution. Acknowledgments should be kept short and those should focus solely on the parties of the project. These can be for example financiers, researchers, study committees and so on.
