INTRODUCTION - PENDAHULUAN (12 Bold Capitalized)

The introduction of the paper should explain the nature of the problem, previous work, purpose, and the contribution of the paper. The contents of each section may be provided to understand easily about the paper. (12)

Headings (12 Bold)

The **headings** and **subheadings**, starting with "**Introduction**", appear in upper- and lower-case letters and should be **set in bold and aligned flush left**.
The font size for **heading is 12 points bold face** and **subsections with 12 points and not bold.** Do not underline any of the headings, or add dashes, colons, etc. (12)

Indentations and Equations (12 Bold)

The first paragraph under each heading or subheading should have a three-space indentation. A colon is inserted before an equation is presented, but there is no punctuation following the equation. All equations are numbered and referred to in the text solely by a number superscript (i.e., [3]reads as "equation [3]"). Ensure that any miscellaneous numbering system you use in your paper cannot be confused with a reference [4]or an equation [3]designation. (12)

Figures and Tables (12 Bold)

To ensure a high-quality product, diagrams and lettering MUST be either computer-drafted or drawn using India ink.

Figure captions appear below the figure, are flush left, and are in lower case letters. When referring to a figure in the body of the text, the abbreviation "Fig." is used. Figures should be numbered in the order they appear in the text.

Table captions appear centered above the table in upper- and lower-case letters. When referring to a table in the text, no abbreviation is used, and "Table" is capitalized. (12)
