Professional Experience

Videographer & Editor | Image Resources, Inc. | February 2024-Present
I am currently employed as a Videographer and Editor with Image Resources, Inc., a legal videography firm based in Indianapolis. We produce videos that attorneys use at trial, at mediation, and for marketing. Working independently and as part of a team, I shoot and edit footage, conduct interviews, create graphics and animations, and operate the company's drone according to each project's needs. I've created video settlement documentaries that have added millions in settlement value to our client's cases, and helped bring justice to injured victims and their loved ones across the country.

Production Assistant | WISH-TV | January 2023-February 2024
When I first came to Indianapolis I worked as a Production Assistant at WISH-TV Channel 8, working on their award-winning *Daybreak* and nationally syndicated *Life.Style.Live!* shows. Each day my duties ranged from running the audio board, operating the studio cameras, floor directing, running the teleprompter, and managing other tasks and troubleshooting problems as they arise, all in a fast-paced live TV environment.

Photojournalist/Editor | WNDU-TV | December 2020-December 2022
For two years, I worked as a photojournalist and a show editor for WNDU's award-winning weekday morning show *16 Morning News Now*. Each morning I was responsible for editing the show and shooting all live shots. In addition, I worked on several award-winning long form & series pieces, collaborating with other reporters to create the most engaging and compelling news stories possible. I also shoot various day-turn & breaking news stories, as the news of the day dictates.
