The first thing I'd like to introduce is our Silver Surfer Vaporizer. While it has been around for 18 years it's never been more up to date. It is the only machine in the industry that can vaporize dry herbs, can dab with a quartz dab dish, and can diffuse 24 hours a day with the Aroma Top. The new quartz dab dish and you can see it in use here.

Please take a few moments to look at all of our exclusive profitable products below.

As the world moves towards portable EVERYTHING, we as a distribution and manufacturing company try and stay ahead of the times, be sure to **check out our portable vaporizers like the Wax Maxer Pro and Wax Maxer Mini for concentrates, and our Sidekick V1 and Sidekick V2** for your dry herb, and many other portable accessories needed for your consumer.
We also have our own **Glass Blowing studio Elev8 Premier** so customization is at our fingertips! We offer custom engravings so you can put your company logo or anything you may want on our units, grinders, etc..
