Awesome Kidz 3

Unit 1 Lesson 7

Aim: Students will learn to identify, match, and associate common actions (write, glue, cut, paint) with their corresponding images through reading, cutting, and gluing activities.

Time: 45-60 minutes

Materials:

- Safety scissors
- Glue sticks
- Flashcards (write, glue, cut, paint)
- Word cards (write, glue, cut, paint)

Tip: Use positive reinforcement to encourage participation and correct answers. Praise students for their effort and provide gentle corrections as needed. Ensure safety while using scissors and guide students on how to handle them properly.

Engage:

Greet the students warmly and gather them around. Show the flashcards (write, glue, cut, paint) and ask students if they know what each action is. Allow students to mimic each action briefly. For example, pretend to write, glue something, or paint.

Play a quick game of "Simon Says" incorporating the actions.

Explore & Practice:

Display the flashcards with the words. Pronounce each word clearly and have the students repeat after you.

With the Book

Show students how to cut out the images of the children performing actions (write, glue, cut, paint). Allow them to carefully cut out each picture along the dotted lines.

Demonstrate how to match each cut-out picture with the correct action box at the top of the page.

Closing:

Review and Recap
Gather the students back in a circle. Ask students to name each action and mimic it.
