Breakout Activity

From Microaggression to Micro-intervention:

Educating the Environment

Setup: A supervisee reports overhearing a colleague make a dismissive comment about clients from a marginalized group.
Roleplay with your peers and take turns being the supervisee and supervisor.
To personalize your roleplay and practice responses, you can add a detail or specific example relevant to historically marginalized groups you have had lived or professional experiences with.
• ***How could you (as a supervisor) respond if you worked in the same practice as your supervisee?***
• ***How could you respond (as a supervisor) if you did not work in the same practice as your supervisee?***
