ONGOING ACTIONS

ACT NOW: TELL CONGRESS, No More Money for ICE and Border Patrol

From Detention Watch and Action Network

In 2026, Congress passed a reconciliation bill that provided ICE and CBP with $70 billion to carry out Trump's cruel mass detention and deportation agenda. Now Congress is debating whether to give these same agencies an additional $30 billion to carry out the administration's anti-immigrant agenda through the Fiscal Year 2027 appropriations process. Use this link to Demand these actions by Congress now:

- Provide NO funding for ICE and Border Patrol in FY 2027 appropriations;
- Redirect taxpayer dollars away from the bloated budgets of ICE and Border Patrol to fund health care and other human needs;
- Restrict the use of funds for further ICE detention expansion, including the construction or renovation of warehouse detention facilities.

TELL YOUR STATE SENATOR: Vote YES on SB 1105
Protect California Rights and Immigrants:

Date: Immediate - Take Action ASAP **Toolkit to write Your Senator**

Join ACLU to protect our rights: Too many Californians feel a severe sense of distrust towards state and local officials since ICE showed up on our streets nearly a year ago. Trump has commandeered state and local police to do his dirty work through federal task forces. Our local police are then ordered to support racially discriminatory immigration enforcement activities, to investigate organizations and individuals demonstrating against these actions, and to target Americans who are documenting ICE's abusive actions.

These operations violate California's existing laws. It's time to send a clear message to the Feds that our state's police resources and personnel will not be used to silence Californians.

The Protect California Rights Act will protect the safety and rights of Californians by:

- Prohibiting local and state law enforcement from assisting federal agents in operations that involve racial or identity profiling, criminalization of speech, or use of unauthorized weapons of war against Californians.
- Prohibiting federal law enforcement from acting beyond their federal jurisdiction to stop and arrest Californians, except during times of emergency and with the Governor's approval.

PETITION: ICE out of Dublin, No new ICE Detention Center in Shuttered Federal Dublin Prison (FCI Dublin)

Date: Immediate - Take Action ASAP

Join ICE out of Dublin and **Sign a petition on Action Network** telling Local, State, and Federal Elected Officials to ICE out of Dublin: No new ICE Detention Center in Shuttered Federal Dublin Prison (FCI Dublin). ICE has continued interest in reopening the notorious FCI Dublin federal prison in Dublin, CA as an immigration detention center. FCI Dublin was closed last year due to powerful survivor-led organizing following years of horrific staff sexual abuse, retaliation, and medical neglect. Survivors also uncovered inhumane and unsafe physical conditions at the facility, including mold, asbestos, and crumbling infrastructure. We call for the permanent closure of FCI Dublin and oppose its reopening as an ICE detention center. Prior to shutdown, non-US citizens incarcerated in FCI Dublin were specifically preyed upon by staff because of their immigration status and pending deportation case. Handing over a facility known for sexual abuse to another agency with a well-documented history of abuse is a recipe for disaster. Research has also shown that areas with immigration detention centers are correlated with higher rates of ICE activities and arrests. Join community advocates, survivors of Dublin, and Congressional representatives and sign the petition to demand a permanent closure of FCI Dublin. The petition signatures will be delivered to local, state, and federal officials.

ADOPT A CORNER: Support Day Laborers and the Community

- **To join community defense in East Oakland and car patrols: Join this thread**

Join local groups working with National Day Laborer Organizing Network (NDLON). We are calling on all allies and people of conscience to join our ongoing Adopt a Day Labor Corner in our community. What we've been witnessing in Los Angeles and across Southern California—ICE raids, armored vehicles, and masked agents—is a testing ground for what will come soon across the country after the massive increase in ICE funding. This moment demands more than watching. It demands that we show up for one another—in person, nonviolently, with courage, with love, and with urgency. If you are not at risk of deportation, we ask you to consider taking action today. Let our love be stronger than their hate. Let our unity be louder than their fear. Let our actions reflect who we really are. **Watch the training video and learn more here.**

DONATE TO EMERGENCY FUND: Help Immigrant Families

Join Faith in Action East Bay, a grassroots, faith-based community organizing group, working on critical issues including housing, gun violence prevention, educational equity, mass incarceration. They are raising $50,000 to create an emergency fund that will provide essential support, such as food and rent assistance for immigrants facing sudden income loss. **Donate to the Go Fund Me here and help them reach their goal of 50,000 to support our community members!**

PETITION & WRITE CONGRESS: Keep ICE out of Dublin
Fight Detention Expansion in CA

Use this link to the petition to keep ICE Out of Dublin:
No Detention Center in Dublin!

1: About the petition: This petition still needs signatures as of 8/20/25. Join community advocates, survivors of Dublin, and Congressional representatives and sign the petition to demand a permanent closure of FCI Dublin. The petition signatures will be delivered to local, state, and federal officials. Those who sign the petition will receive follow-up communications about future actions.

2: Write to Government Leaders - letters still needed as of 8/20/25:
Use this link to send letters to elected officials: Oppose ICE Plan for Detention in Dublin
An invitation from the Center for Common Ground: The establishment of immigration detention centers often leads to increased ICE activity and arrests, fostering fear and insecurity within immigrant communities. With ICE's troubling track record, converting the **Federal Correctional Institution in Dublin -- known as Dublin FCI** – into a detention center risks perpetuating its legacy of trauma and neglect.

PRINT OR BUY "KNOW YOUR RIGHTS" CARDS
and distribute them to vulnerable community members

The **Immigrant Legal Resource Center (ILRC)** offers "Know Your Rights" cards -- often called "red cards" -- in numerous languages as well as in English for use by everyone in the U.S., regardless of immigration status. These cards help people assert their rights and defend themselves in many situations, such as when ICE agents go to a home.

Pre-printed red cards can be ordered using this link:
https://www.redcardorders.com/ To facilitate distribution of these cards, however, immigration activists are also requesting that allies and supporters **print pages of the cards on plain white paper using their own computers/printers.**

To download the PDF's for printing cards yourself, scroll down on the page at this link (and choose the language in which you want to print the cards): ILRC - Know Your Rights Cards.

Once the cards are ordered or printed, it is important to pass them along to those who can use them most.

An invitation from United We Dream: Recognizing that our strength is generational, and that strength allows us to build something better, join us to celebrate ancestors and loved ones. We will be holding space for our parents, children, siblings, neighbors, and students who have been torn from our communities through this administration's mass delegalization agenda and honor the dozens of souls who lost their lives in the chaos created by federal agencies.

Receive updates on the **Dream & Promise Act Petition**, proposed legislation to provide a pathway to citizenship for undocumented immigrants known as Dreamers. Contact key house members who have not yet signed on to the Dream and Promise Act discharge petition. **Make a community altar** and learn the significance of the **Dia de los Muertos tradition**. We will use the tradition of Dia de los Muertos to make meaning of the tragedies our communities have endured. Bring a photo of a loved one who has passed, a beloved pet, or someone who is currently detained to take part in our digital altar.

If you're planning to set up your own Dias de Los Muertos altar at home, we'll also provide a **printout** honoring the lives of those who lost their lives at the hands of federal agents, and listing their names, so you can add it to your altar.

United We Dream, started in 2008, is an immigrant youth-led network advancing justice and dignity for all immigrants. United We Dream organizers were key in passage of the DREAM Act (Development, Relief, and Education for Alien Minors) Act, legislation that grants temporary residency to qualified youth, known as Dreamers, who were moved to the US as minors. DACA (Deferred Action for Childhood Arrivals) is the policy that provides temporary protection from deportation and work authorization to Dreamers.

From Solidarity Organizing Initiative
DACA (Deferred Action for Childhood Arrivals) renewal delays and court decisions are making it easier to detain and deport DACA recipients. Federal agents have detained over 340 DACA recipients and deported at least 90 since the start of 2025. Also, the Supreme Court's decision on Haitian and Syrian Temporary Protected Status (TPS) is stripping protection from 1.5 million TPS holders.

Texas Congresswoman Sylvia Garcia has filed a discharge petition on the full Dream and Promise Act (H.R. 1589), which would provide a pathway to citizenship for over 4.4 million immigrant young people, DACA recipients, and TPS holders. If 218 Members of Congress sign on, the bill goes directly to the House floor for a vote. 210 Members of Congress have signed on. Only 8 more votes are needed.

Join this call to learn how to secure sufficient votes for H.R. 1589 to proceed to the House floor for a vote. Guest speakers with policy expertise will provide information about:

- What the Dream and Promise Act does and who it protects
- How a discharge petition works, and why we are this close to forcing a vote
- Where things stand in Congress for H.R. 1589 and what is needed to close the gap

SOLIDARITY COMMUNITY CALL: Birthright Citizenship, the 14th Amendment & Family Safety Plans

Date: Thursday, July 2, 4PM Pacific Time

From Solidarity Organizing Initiative

RSVP NOW — Thursday, July 2nd | 4:00 PM PT

For more than 150 years, the 14th Amendment has guaranteed a simple principle: if you are born here, you are a citizen. The Trump administration is now asking the Supreme Court to reinterpret that guarantee — arguing that birthright citizenship should hinge on a parent's immigration status, not the soil on which a child is born.

On July 2nd, we'll dig into:

- What birthright citizenship is and why the 14th Amendment matters
- What the Court is actually deciding in Trump v. Barbara
- What a ruling — in either direction — means for immigrant and mixed-status families
- Practical steps to build a family safety plan before you need one

This call is for families, allies, organizers, and anyone who refuses to be caught off guard. The decision is coming. The question is whether our communities are prepared. We're creating this space, so the answer is yes.

Melt ICE Webinar Series: Disability Justice is Immigrant Justice!

Date: Thursday, June 11
Time: 12 pm to 1:30 pm PT
Register here
Hosted by Detention Watch Network: This webinar will explore how disability and immigration justice are connected and discuss ways to include disability justice efforts to end detention. Hear from New Disabled South and Rodney Taylor, a double amputee migrant, who was recently released after spending 15 months in Stewart Detention Center thanks to community organizing efforts. Lately, there has been a rise in discussions and policies that promote eugenics and target disabled people across the country. However, the experiences and history of disabled immigrants are often overlooked when talking about immigrant rights, even though the U.S. immigration system has a history of discrimination against people with disabilities. Trump continues to push an aggressive expansion of ICE and immigrant detention. Yet, across the country, people are organizing to stop detention expansion and to protect themselves, their immigrant family members, neighbors, and friends who are at risk. Join the resistance!

"Students Belong in the Classroom: ICE Out of Our Communities"

Date: Thursday, March 26

Time: 3:30 PT

Location: Virtual

RSVP here

Join United We Dream to support our students and teachers..This month federal agents, pretending to be local police looking for a missing child, entered the residence hall of Elmina Aghayeva, a senior at Columbia University, and detained her. After students in NYC and around the country organized and mobilized, Elmina was released that same day. Unfortunately, Elmina's story isn't unique - we're seeing more and more students and youth being targeted for detention and deportation.

But young people aren't just standing by. From San Diego to Dallas to NYC, young people are standing united in making it clear that ICE has no place in our classrooms and communities. These acts of courage are what builds change. Our unity is what will keep us safe.

We have a right to safe spaces where we can learn and thrive. But, it's impossible to focus on preparing for our future when ICE is taking our classmates, teachers, and loved ones away from us.

Join NDLON in a National Call - ICE Out of our Communities

Date: Friday, March 6

Time: 1-2:30 PST
Location: Virtual
RSVP here
Invitation from National Day Labor Organizing Network (NDLON)
People across the country have voiced one clear demand: **ICE OUT NOW**. Despite public pressure, ICE is not only still active in our communities – they are planning to expand: more agents, more coordination with local police and sheriffs, and more enforcement carried out quietly, without public scrutiny. In fact, on Thursday, Congress is seeking to move forward a proposal to get rid of sanctuary cities, increasing the urgency for action. Read more here.

Across the country, immigrant communities have led powerful fights to stop 287(g) agreements, block ICE contracts, and win sanctuary protections. Those victories proved something critical: local action works. When cities and counties say NO – no funds, no collaboration, no collusion – ICE's power shrinks.

On this call, we will:

- Share what we know about ICE activity and expansion plans
- Break down what cities and counties can legally do to cut ties
- Identify pressure points with local elected officials
- Connect you with others organizing in your area
- Outline concrete next steps you can take immediately

Funding for ICE Vote

Date: Immediate - Take Action ASAP

ICE must be stopped before there are more heartbreaking tragedies.

Lawmakers still need to negotiate a spending bill for the Department of Homeland Security. The Democratic Progressive Caucus have made forceful stands to rein ICE in, but the Democratic leadership has not. We need to call our Senators and Representatives and request that they pressure Democratic leadership to take a public stand to push for an appropriations bill that puts serious restrictions on ICE, ends its dragnet raids, and doesn't add a penny to its bloated budget.

- Use the 5 Calls app to call Senators and our Representative Here's the link for the app: 5 Calls
- Or call CA members of Congress directly at these phone numbers:

  ---Senator Adam Schiff - (202) 224-3841
  Be prepared to leave your name and contact info on the voicemail.
  ---Senator Alex Padilla - (202) 224-3553
  Again, be prepared to leave your name and contact info on the voicemail.
  ---Representative Lateefah Simon (202) 225-2661

Usually a staff member answers and is ready to take your message

We will learn:

Attend Alameda County Board of Supervisors Meeting

If online you can submit a comment beforehand using this link written comment or you can also do it via zoom.

With the escalating crisis of lawless ICE enforcement and violence in our communities and the fatal shootings by ICE agents of Renee Nicole Good, Keith Porter and Alex J Pretti, it's critical we support two crucial proposals from Supervisor Nikki Fortunato Bas at the upcoming Board meeting on January 27th:

1. Creation of an Alameda County Immigration Enforcement Response Plan, which provides for protocols for rapid communication and response among County agencies in case of escalated federal enforcement.
2. Adoption of a Policy for "ICE FREE ZONES" restricting the use of county-owned and county-controlled properties for immigration enforcement activity. Let's protect our hospitals, services, courthouses, and other crucial county facilities.

The kits consist of whistles, know your rights cards, rapid response numbers and emergency drop cards. This is a direct way

to assist those who are able to do the legwork in the streets. Once we assemble the packets they are distributed throughout the community, with a special focus around schools, foot patrols and immigration support community organizations.

What we've been witnessing in Los Angeles and across Southern California—ICE raids, armored vehicles, and masked agents—is a testing ground for what will come soon across the country after the massive increase in ICE funding. This moment demands more than watching. It demands that we show up for one another—in person, nonviolently, with courage, with love, and with urgency. If you are not at risk of deportation, we are asking you to consider taking action today. Let our love be stronger than their hate. Let our unity be louder than their fear. Let our actions reflect who we really are.

UNMASKING ICE

Date: Wednesday, Dec. 3
Time: 6:30 pm
Location: Virtual

Use this link to register: REGISTER HERE
An invitation from the Center for Political Education, Bay Resistance, Movement Generation and 18 Million Rising
ICE has been at the forefront of the Trump regime's efforts to kidnap and abuse immigrants, silence dissent, and invade "Blue" cities. With a massive increase in funding to ICE, public spectacles of violent raids, and racist demagoguery coming from ICE and administration officials, social movements must reckon with a sobering question: What kind of paramilitary force is the Trump regime building and to what end? In this political education and training session, we'll analyze changes to ICE infrastructure and practices and what they mean for our efforts to stop US authoritarian rule. We'll also discuss how ICE works closely with tech companies to surveil and enforce its violent program and what we can do to defend ourselves and our communities. Co-sponsored by: Center for Political Education, Bay Resistance, Movement Generation and 18 Million Rising

The Oakland Police Department is looking to push through a $2.25M contract to expand its surveillance network under the privately-owned company FLOCK Safety — and we need you to show up and demand they reject any use policy or contract with FLOCK in Oakland.

The proposed contract would consolidate OPD's public camera surveillance network with private camera feeds — including doorbell cameras and Automated License Plate Reader (ALPR) data — into one massive, privately-owned database system operated by Flock. If approved, OPD will collect and store Oakland data into a warrantless searchable database of millions of law-abiding Bay Area residents that is accessible to over 5,000 agencies nationwide—including ICE and the Trump administration.

What happens when families are taken from our communities? Where are they detained, what happens to the kids, and how many are quietly deported or disappeared?

- The history of family detention in the U.S.;
- The current conditions families face in detention and the policies that fuel this unjust practice;
- What people across the country are doing to oppose family detention and protect their communities; and
- How you can join the movement to #FreeFamilies from detention once and for all.

As ICE raids intensify and militarized tactics escalate nationwide, the fight to remove ICE from CA has never been more urgent. Now is the time to raise our voices and share our stories. Together we must stand against detention and state violence -- drawing on the legacy of Japanese American incarceration during WWII to resist its repetition today.

We must not let an ICE detention facility open in Dublin, CA or anywhere in Northern California. Our community members are more likely to be arrested & detained by ICE in counties with more detention beds. This is our moment to speak out, take action, and stand in solidarity with our community members!!! Never Again is NOW!

An invitation from La Peña Cultural Center:

Join us for a powerful screening of A Thousand Pines directed by Noam Osband and Sebastian Diaz, as part of the Immigrant Voices Film Series at La Peña Cultural Center. A Thousand Pines explores the lives of migrants who depend on the controversial guest worker visa program, following a crew of workers from Oaxaca, Mexico, as they plant trees throughout the United States. The film shows their struggle to balance the physically demanding work and extreme isolation, while staying connected to their families back home. Over the course of the season, the crew becomes a small family, cooking, caring for each other, and enduring the punishing work. The film centers on Raymundo Morales, the crew foreman, who is in his 19th season working for the largest reforestation company in the U.S. When he started, he was single and had few responsibilities. Now, he must balance his obligations to his wife, children, and his elderly mother with a heart condition, while also tending to the needs and emergencies of his crew. Spending only three months at home during the off-season, Raymundo's job is both the family's salvation and its heartbreak.

After the screening, stay for a discussion with the filmmakers. Benefits Centro de los Derechos del Migrante.

Disappeared in America: Talk to Your Sheriff Training

Date: Monday, June 30
Time: 5:00 pm Pacific Time
Location: Zoom
To Register: Use this link
About this event:
Come learn how to protect your neighbors! Across the country, people are being quietly disappeared by ICE – **often with the help of local law enforcement.** These disappearances happen without due process, without warning, and in many cases, without accountability. And people are suffering. Thousands of people have been arrested and forced into inhumane conditions, with significant overcrowding and lack of access to basic needs. At least ten people have died while in custody, often due to inadequate or nonexistent medical care. Thousands more are "missing" – taken off the streets so quickly that federal officials can't figure out where they are now, meaning that neither their families or their lawyers can help them. **Is this what America is supposed to be? Join Disappeared in America and its co-sponsors to fight back and prepare for raids in our community.**

At this training, you'll learn:

- How to meet with or call your sheriff and demand they stop cooperating with ICE;
- What powers your sheriff actually has and how to hold them accountable;
- How others have organized to successfully stop deportations in their communities.

Zoom link will be sent after you register.

About this webinar:

ICE Out of Dublin is calling for the permanent closure of the Federal Correctional Institution in Dublin (FCI Dublin) which is located across from the Santa Rita Jail. ICE is pushing for this facility to become a detention center. FCI Dublin was closed last year due to powerful survivor-led organizing following years of horrific staff sexual abuse, retaliation, and medical neglect. At this virtual webinar, you will learn more about how to fight detention expansion in California.

Sign this Petition:

Use this link to sign the petition to keep ICE Out of Dublin: No Detention Center in Dublin!

About this petition:
Join community advocates, survivors of Dublin, and Congressional representatives and sign the petition to demand a permanent closure of FCI Dublin. The petition signatures will be delivered to local, state, and federal officials. Those who sign the petition will receive follow-up communications about future actions.

Write to Government Leaders:

Use this link to send letters to elected officials: Oppose ICE Plan for Detention in Dublin
An invitation from the Center for Common Ground:
The establishment of immigration detention centers often leads to increased ICE activity and arrests, fostering fear and insecurity within immigrant communities. With ICE's troubling track record, converting Dublin FCI into a detention center risks perpetuating its legacy of trauma and neglect. We cannot allow another chapter of suffering to be written in this facility's history.
Take action! Write to influential leaders – members of the **Congressional Judiciary Committee**, U.S. Senators **Adam Schiff** and **Alex Padilla**, **Governor Gavin Newsom**, and **Attorney General Rob Bonta** – using our call to action tool. Use your voice to advocate for the permanent closure of Dublin FCI and oppose its resurrection as an ICE detention center!

Distribute Know Your Rights cards ("red cards") to people who need them

Here's how…Go to the Immigrant Legal Resource Center's website page for Know Your Rights Cards at this link: **ILRC Cards** You can order pre-printed cards from this site. Or, download a pdf document (available in several languages) and print the Know Your Rights cards on plain paper using your home computer, or by going to a copy shop. These documents spell out the rights and protections afforded to anyone in the U.S. who is stopped by law enforcement personnel.

Background information from All Rise Alameda member Alice Sunshine:
All over the country, immigrant rights groups are waging a quiet but rapid mass distribution of information about our Constitution to people who need that information. In the past, the groups printed what's widely known as the "red cards" with text about our 4th and 5th Amendment rights—such as the right to remain silent, not open your door, etc. BUT—now that information needs to get into people's hands fast. So, the immigrant rights groups have dropped printing in red and they are saying to just make and circulate photocopies of the cards on sheets of plain white paper. Distribute those sheets of cards to people who can pass them on, and get them out in every way we can.
