Maryland State Firemen's Association (MSFA) – Fire & Injury Prevention and Life Safety Committee is seeking abstracts for posters (visual display) that address a specific fire prevention or injury prevention initiative in your local community. This is a great way to share the work of your company's educational efforts in your community. The goal of this new initiative is to promote creative and best practices across the state as part of this annual seminar. The poster should focus on one life safety/injury prevention risk area or one program. [Please do not submit a series of activities].
