I am thrilled to join the Montessori Peaks Academy community! I am passionate about supporting Montessori education in public school settings and have taught both Primary and Lower Elementary. I also continued my Montessori training through Upper Elementary and recently completed my Master's degree in Montessori Education and Leadership. As a lifelong learner myself, I find it deeply rewarding to guide students as they discover and pursue their own love of learning.

Outside of teaching, I enjoy spending time with my husband, our children (ages 18 and 20, who attended Montessori public school through high school), and our pets. Depending on the season, you might find me cross-country skiing, snowshoeing, hiking, camping, or paddleboarding. I also love dancing, reading, and music—whether that's listening, singing, playing the piano, or attempting to play the guitar and ukulele.

I look forward to getting to know all of you and being part of the MPA community!
