Subject: **Nine Months of Delay — Enough**

Dear Board Chair Woodward,

It has now been nine months since Oakland County residents first asked this Board to codify protections and provide support for ALL Oakland County residents.

Nine months of emails and public comments. Nine months of residents asking the same basic questions about ICE, CLEMIS, Flock, surveillance, and data access. And still, no meaningful action on the six community asks.

Now we have learned of serious allegations involving a former Oakland County Sheriff's Office employee who allegedly accessed Flock after leaving County employment and conducted at least 58 immigration-related searches.

We were told to trust the systems, trust the lack of policies, trust the people overseeing them. We were misled.

The community's six asks remain simple:

Approve

- $50,000 for legal aid
- $100,000 to address food insecurity for impacted children
- Add two community members to the Community Safety & Civil Rights Ad Hoc Committee

Codify

- No ICE activity on Oakland County property without a judicial warrant
- No 287(g) agreements
- No CLEMIS Authority contracts with DHS/ICE

The Board needs to immediately move the six community asks forward, order a comprehensive audit of all surveillance technologies and access logs, conduct an HR and IT review to ensure former employees cannot access County systems, and implement meaningful transparency and ethics reforms.

The community has done its part. We have shown up. We have spoken. Now you must act.

Sincerely,

[Your Name]
[City or Township]
Oakland County Resident
[Email / Phone Number if comfortable]
