Experience
5+ YEARS

Job
FULL-TIME

About us:

Akvelon is an international IT company headquartered in Bellevue, Washington with 13 offices in 10 countries.

Since 2000 we have been developing software for Microsoft, GitHub, Intel, HP, Reddit, Pinterest, AT&T, T-Mobile, Starbucks etc.

According to “USA Today”, Akvelon has been on the list of the 50 best companies for several years in the following categories: Best Leadership Teams, Best Company Culture, and Best Company Compensation.

Requirements:

- 5+ years of development experience;
- Experience of a building data lake using AWS (Redshift, Glue ETL, S3, Athena);
- Experience with Spark and SQL;
- Experience with integration using REST, GraphQL, SOAP APIs etc.;
- Readiness to work with the overlap 10am - 11am PST;
- English Upper-Intermediate or higher.

Nice to have:

- Experience with BI Tools (e.g. AWS Quicksight, Domo etc.);
- Experience with FiveTran.

Typical tasks:

- Build and manage Data Lake in AWS using AWS native services from the scratch;
- Articulating technical vision and technological considerations.

We offer:

- Flexible work schedule and remote work;
- English language trainings / private tutors / local languages for offices;
- Participation in conferences, professional trainings, workshops, mentoring programs / certifications;
- Opportunities for professional growth;
- Providing with all necessary hardware (laptop, monitor, headphones etc.);

- Monthly activities / quarter team buildings / corporate parties;
- Business trips in company offices;
- Monthly / quarter / year benefits;
- Private medical insurance (premium pack);
- Fitness / gym / swimming pool (Multisport card);
- Opportunity to move to the U.S. in the future.
