Divorce Attorney Follow Up Letter Template

[First Name],

Working as an attorney is often a thankless job.

Clients expect you to work miracles and get angry when something outside of your control goes wrong.

Fortunately, I'm here to make your life easier.

Here are a few ways I can help you:

- Free Market Analysis. If you need a market analysis on any client's home, just let me know and I'll send it to you.

- A Confidential, Anonymous Market Analysis (for your own eyes only). I can provide you with that information without contacting your client or viewing the home.

- An Easy-Going, Cooperative Experience. I'm looking to build long-term relationships with attorneys like you, so it's my goal to be easy to work with. I want you to feel comfortable referring your clients to me.

The next time one of your clients is thinking about selling their home, I can step in and help them navigate the process while getting top dollar.

Remember, I'm here to help you!

Sincerely,
