Best Practice 1: Provide metadata								
Best Practice 2: Provide descriptive metadata								
Best Practice 3: Provide structural metadata								
Best Practice 4: Provide data license information								
Best Practice 5: Provide data provenance information								
Best Practice 6: Provide data quality information								
Best Practice 7: Provide a version indicator								
Best Practice 8: Provide version history								
Best Practice 9: Use persistent URIs as identifiers of datasets								
Best Practice 10: Use persistent URIs as identifiers within datasets								
Best Practice 11: Assign URIs to dataset versions and series								
Best Practice 12: Use machine-readable standardized data formats								
Best Practice 13: Use locale-neutral data representations								
Best Practice 14: Provide data in multiple formats								
Best Practice 15: Reuse vocabularies, preferably standardized ones								
Best Practice 16: Choose the right formalization level								
Best Practice 17: Provide bulk download								
Best Practice 18: Provide Subsets for Large Datasets								
Best Practice 19: Use content negotiation for serving data available in multiple formats								
Best Practice 20: Provide real-time access								
Best Practice 21: Provide data up to date								
Best Practice 22: Provide an explanation for data that is not available								
Best Practice 23: Make data available through an API								
Best Practice 24: Use Web Standards as the foundation of APIs								
Best Practice 25: Provide complete documentation for your API								
Best Practice 26: Avoid Breaking Changes to Your API								
Best Practice 27: Preserve identifiers								
Best Practice 28: Assess dataset coverage								
Best Practice 29: Gather feedback from data consumers								
Best Practice 30: Make feedback available								
Best Practice 31: Enrich data by generating new data								
Best Practice 32: Provide Complementary Presentations								
Best Practice 33: Provide Feedback to the Original Publisher								
Best Practice 34: Follow Licensing Terms								
Best Practice 35: Cite the Original Publication
