PBL Leadership Academy

Welcome to PBL Leadership Academy Spring Institute!
April 27 to May 1, 2020, Multiple Locations

***Important*: Register for each workshop here!**

Our big goals:

- *To develop leadership capacity to design, facilitate, and share authentic PBL curricula (even during school closures).*
- *To build community, learn from one another, and support each other during school closures.*
- *Document and share resources that we can share in our own educational communities.*

This is a "Choose Your Own Adventure"-Style event.
Your Event User Guide

Monday and Wednesday: Please choose the workshops that work best for you. When you are not in a workshop, please connect with colleagues and complete the projects that you begin in your workshops. **Friday:** Join Tuning Protocols as a presenter and/or panelist. Then, share your learning via exhibition and presentations of learning.

We also encourage you to use this week to complete one of the HTH GSE's self-paced course offerings. We recognize that everyone is in different circumstances during this time and offer our support—please stay connected with us.

The Product that You'll Create… and Take Home:
"PBL With a Full Deck"—PBL Leadership Academy Core Practice Cards

The *UnBoxed* Project Cards are HTH's most widely accessed resource. Around the world, they are used regularly as a starting point when educators plan PBL experiences for their own schools.

We are making our own "Full Deck," which dives deeper into our work to support the spread and improvement of PBL in California, especially during this time of school closures, and in anticipation of the wider use of related technology or practices when we return to school.

This week, you'll create a card for other teachers to use that:

- Shares a PBL Core Practice you can practice throughout school closures
- Supports the growth, improvement or facilitation of PBL once schools re-open again

Here is the template for your writing and images, and after you complete these and submit them, we will complete the layout process and share the full deck with you.
