Sam Schatmeyer

Student Services Committee 2018-19 Report

Responsibilities as Chair

- Set agendas not only for individual meetings but for the overall business and direction of the committee.
- Record attendance at meetings
- Set meeting times and ensure that they happen regularly. Admittedly meetings have been sporadic, especially during the second semester. I think this happened - and happens - as priorities for individuals start to move elsewhere. For transition purposes, I think this can be remedied with a more robust goal setting session at the beginning of the year.

Procedures

- Setting a meeting time can be terrible, so be sure to find one as early as possible (before other committees/extracurriculars set their times).
- Think bold and then move to concretize steps to achieve the bold ideas.
- Delegate, but make sure everyone is on board so that people are willing and able to be delegated to.

Biggest achievement:

The student center! The student services committee had pushed tirelessly throughout the last senate and this one to raise the student center to the top of administration's priority list. Our work to create a student funding committee, our student center guiding document, and our plans to host a brick rally caught the eye of relevant administration and proved the desire on campus for a communal space separate from Brody.
