Lampworking Supply List (prices as of 11/6/2019)

If you have not tried lampworking before, you can try out studio equipment at your first guild meeting. If you decide to continue in the guild you will need to purchase, at a minimum, the first four items before your next meeting. Starred (*) items are available at the studio in limited quantities and you may need to take turns using them depending on the number of people attending until you purchase your own. The rest of the list will complete your kit, allowing you to do lampwork at home and at SCA events.
