SFUSD SAN FRANCISCO PUBLIC SCHOOLS

Student and Family Services Division

NURSE OF THE DAY

Every school should have access to current health information.

Historical Background
The Nurse of the Day service began in 1991 when many schools in SFUSD did not have a school nurse and would otherwise not have access to current, reliable health information.

Who is the Nurse of the Day?
The Nurse of the Day (NOD) is a centrally-assigned School District Nurse who is available through the Student and Family Resource Link, and who is knowledgeable of the district's health-related policies and procedures.

What is the Goal of the Service?

The Nurse of the Day (NOD) service is dedicated to providing timely response based on current health-related policies and procedures to students, employees, parents/caregivers and community-based organizations in SFUSD.

How do you reach the Nurse of the Day?
Since the COVID-19 pandemic and the closure of many district offices, the Nurse of the Day is now available through the Student and Family Resource Link: call 415-340-1716 (M-F, 9:00 a.m.-3:00 p.m.), email sflink@sfusd.edu, or complete an online request form.
