HealingALS.org Sunday Meeting Notes: Frequency Machines and ALS
August 28, 2022

Scott began the meeting at 11:06am PT and welcomed everyone to the meeting. He reminded everyone that we are not medical professionals, nor are we giving medical advice. Rather, we are sharing the experiences of those who have slowed or reversed their symptoms.

Healing ALS Sundays
• Sundays 11AM PT/2PM ET/8PM Europe. Recordings on HealingsALS.org. Click Sunday Recordings.
• This is for educational purposes only. We are not medical professionals and this is not medical advice
• This is an online support group about reversing ALS holistically for PALS, families and medical professionals
• Based on meeting over 30 ALS reversals, know about 100+ reversals
• Based on interviewing over 30 functional medical professionals
• We continue to learn new things every week and share with you
• Goal 100 reversals from this group by end 2022 (200 total incl past)

Our observations from ALS reversals: How to Heal ALS
Talking: Patricia Tamowski
• Do your own research—physical and mindset
• Attend this class, listen to conference recordings, books, YouTube videos
• YOU are President. Your advisors are holistic professionals, ALS reversals, speakers/authors
• PALS, do things that "resonate" with you—this is what reversals do
• Do everything you can to heal. Apply what you learn
  • 50% physical diet/supplements/detox
  • 50% mindfulness/mindset/attitude/meditation/prayer
• Healing ALS is a marathon, not a sprint. Many ALS reversals take 5, 6, 7 and 8 years to reverse and now live great quality lives. Not an easy journey. Fulfilling journey.
• Have fun and enjoy life while working on healing

YOU are the hero, the PALS and CALS
Talking: Patricia Tamowski
• We honor you for taking charge of your health, day in and day out.
• We honor you, both PALS and CALS for your day to day struggle in this challenging disease
• We honor PALS and CALS for being here actively looking for more answers that work for YOU, since every ALS case is different.
• There is no magic ALS pill. There ARE proven effective treatments that work—diet, correcting nutritional deficiencies and cellular function, detox, more.
• We also appreciate all of the ALS medical professionals who are here live or listening to this recording. YOU are the future of medicine, you are open-minded enough to think outside the box and learn from PALS and other MPs.
• It is through this combination that we will get our 70-90% ALS reversal rate.

Supporting your Healing ALS Journey
Talking: Patricia Tamowski
Click Start Here on HealingALS.org
Step 1
Where do I Start?
Have you been diagnosed with ALS, MND or probable ALS? Are you a family member or friend? An ALS diagnosis can be overwhelming. Review this document for a roadmap of how others are successfully managing this diagnosis and find answers to their questions.
Step 2
Attend Sunday Healing ALS Community Meetings
Every Sunday, our international community features ALS-related healing and reversal webinars. Join in to learn, listen and participate, and share your questions and opinions with other PALS and CALS in interactive sessions.
Step 3
Basic Bootcamp
With the help of volunteers and ALS reversals, we have identified and summarized fundamentals for healing into a bootcamp program that every PALS should attend. It provides basics but also specific knowledge about your body and mind. Recorded sessions are available here.
Step 4
Join HealingALS WhatApp group
After completing steps 1 to 3, we invite you to join our exclusive and closed WhatsApp group, in which we share daily stories, questions and answers and provide you direct access to the other members of our community!

Making Connections on Facebook and Instagram
• When you see someone post about a recent diagnosis or an issue you have experience with, it's the perfect time to make a connection
• To avoid the risk of being removed from a group or having several people tell you what your saying isn't true, a private message is best
• Leave a comment that says you sent a private message, then send a message to them directly

Dr. Cowden mentioned that on Sunday morning at the Conference, there will be a health practitioner think tank session from 8am to 2pm to look at not just ALS, but other neuromuscular diseases like MS and Dementia.

Tish welcomed Dr. Tennant to the meeting.

HEADER
Talking: Jerry Tennant
• All chronic disease is characterized by loss of voltage to the organ(s) that are failing
• Every organ has its own battery pack called an acupuncture meridian
• Acupuncture circuits are simply stacks of specific muscle batteries.
• When you drain a muscle battery to zero, it flips it polarity and cannot be charged
• The answer to ALL chronic diseases is why the battery pack lost its charge/

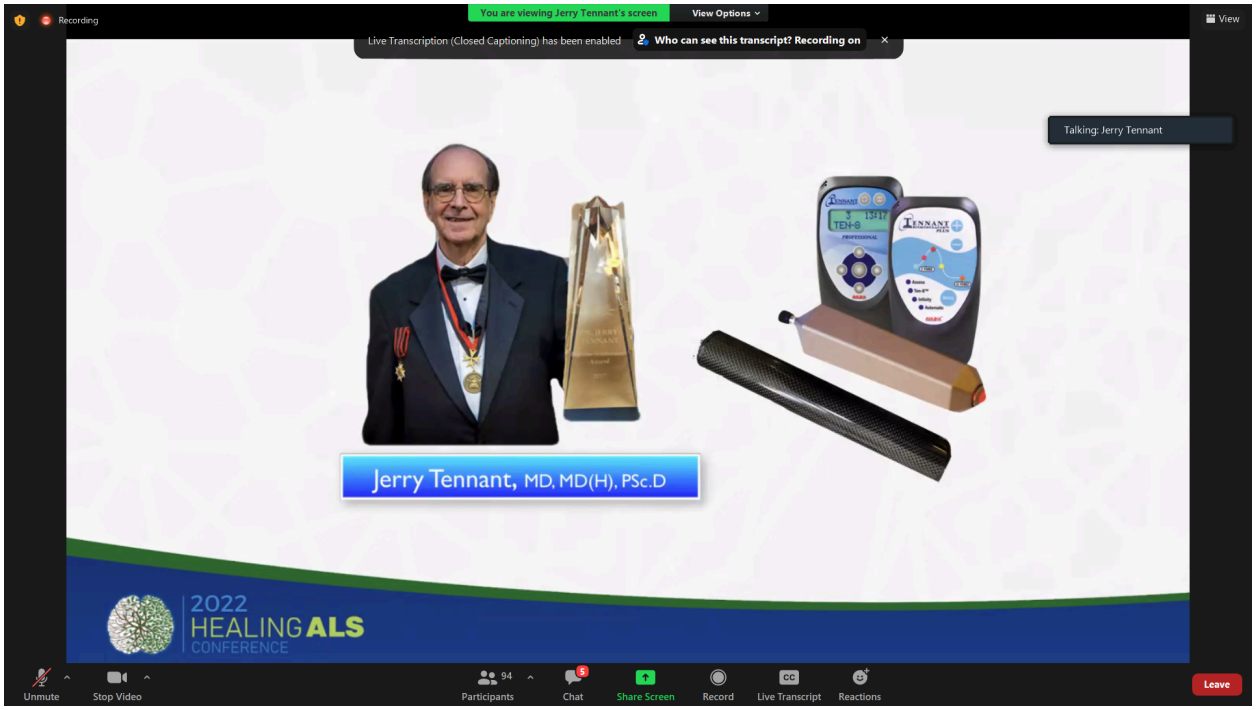
(missed some slides here. Bad connection)



Q & A

1. What do you think of Electro Acupuncture?
   It's only one piece in the puzzle. To fix something in this scenario, you have to flip the polarity back again.

2. Where are you located?
   Irving, TX tennantinstitute.com He cannot treat virtually.

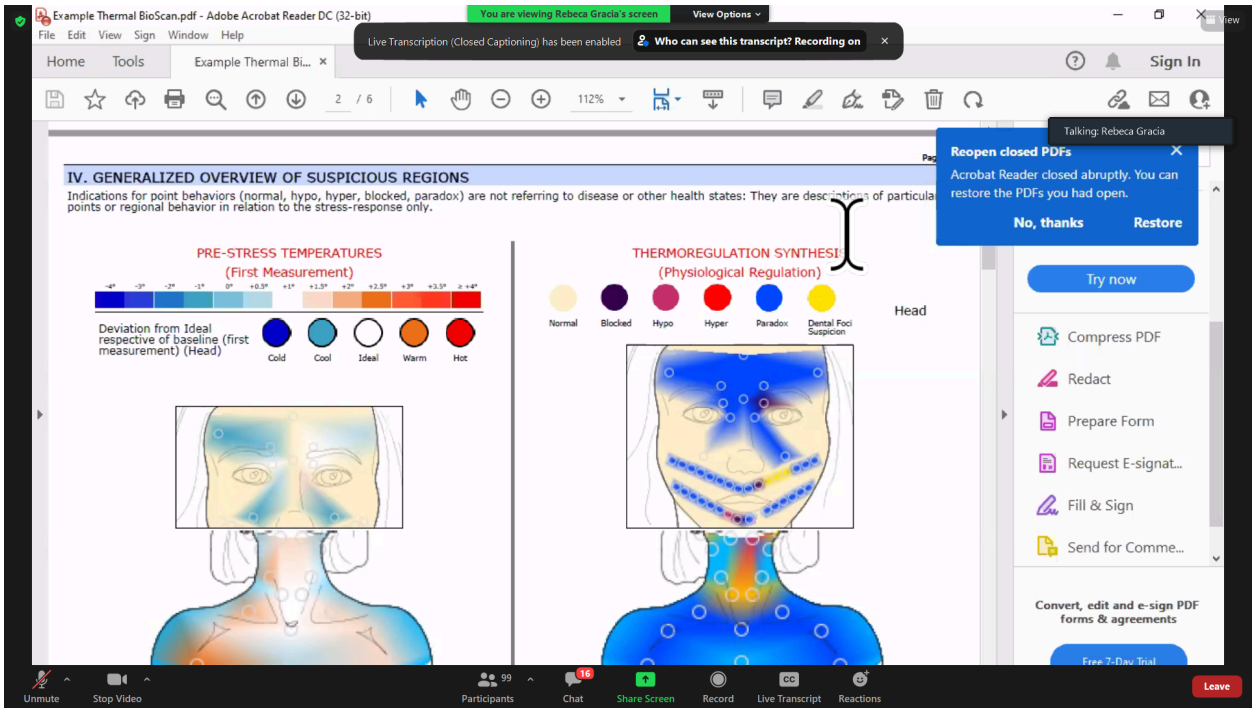
3. Will it help improve speech?
   If we can identify any part of the body that has lost its function, you can fix the polarity. Bulbar issues are connected to the large intestine. Find out what's wrong there.

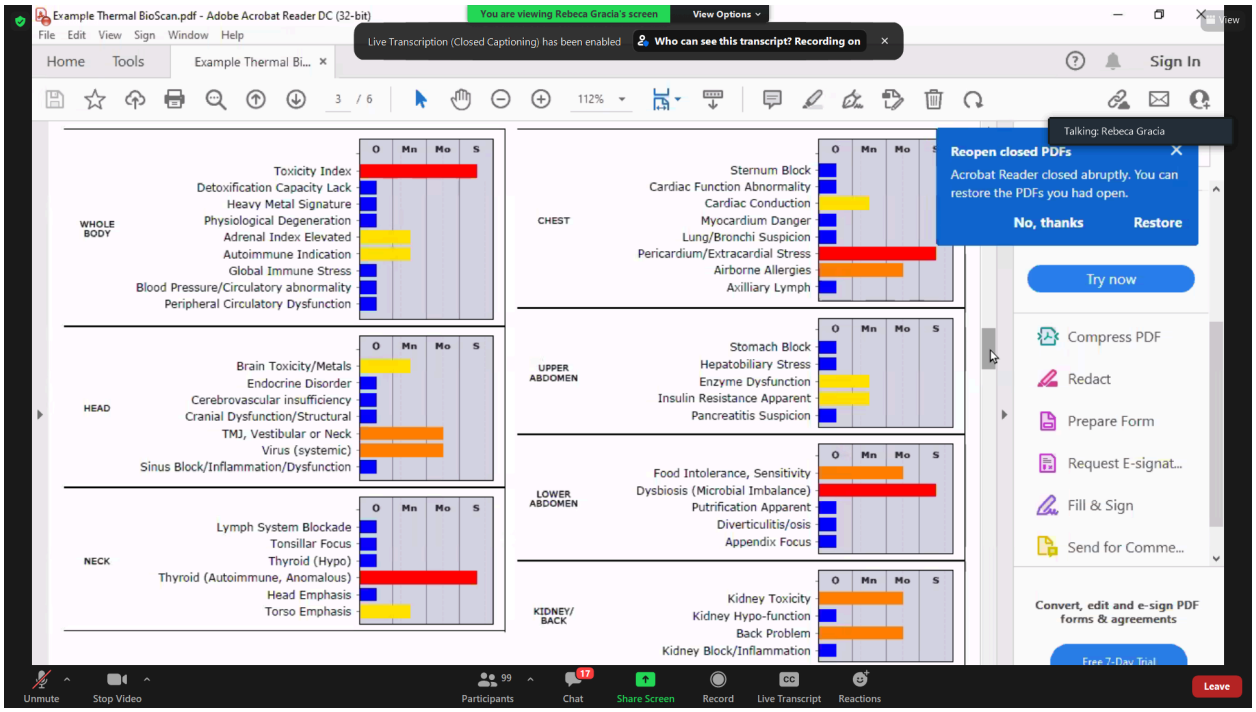
4. How can sight be restored?
   Eyesight is connected to the stomach/spleen circuit.

5. What about using a Rife machine?
   If you haven't fixed the polarity where it has been flipped, the problem will continue. The Rife machine is one part of the puzzle, but it doesn't get back to fixing the physiology and "flipping the polarity" back again.

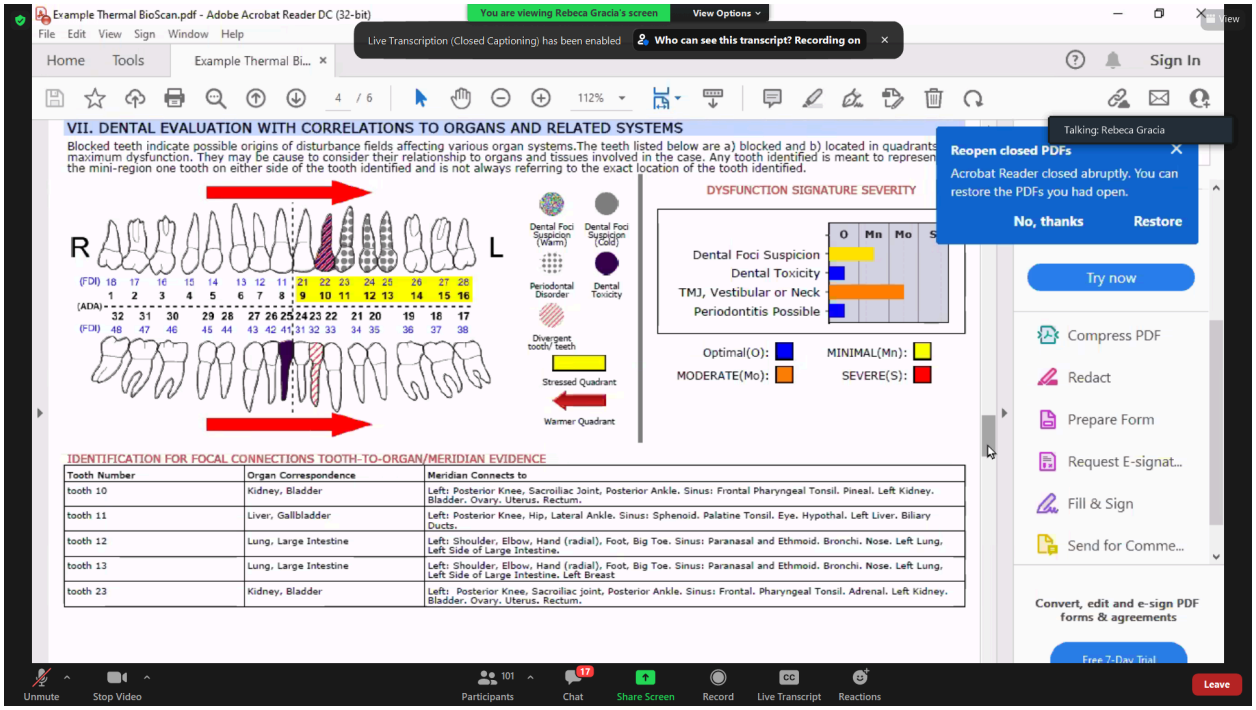
6. How many sessions does it take?
   Depends on your health, emotional health, toxins, etc.

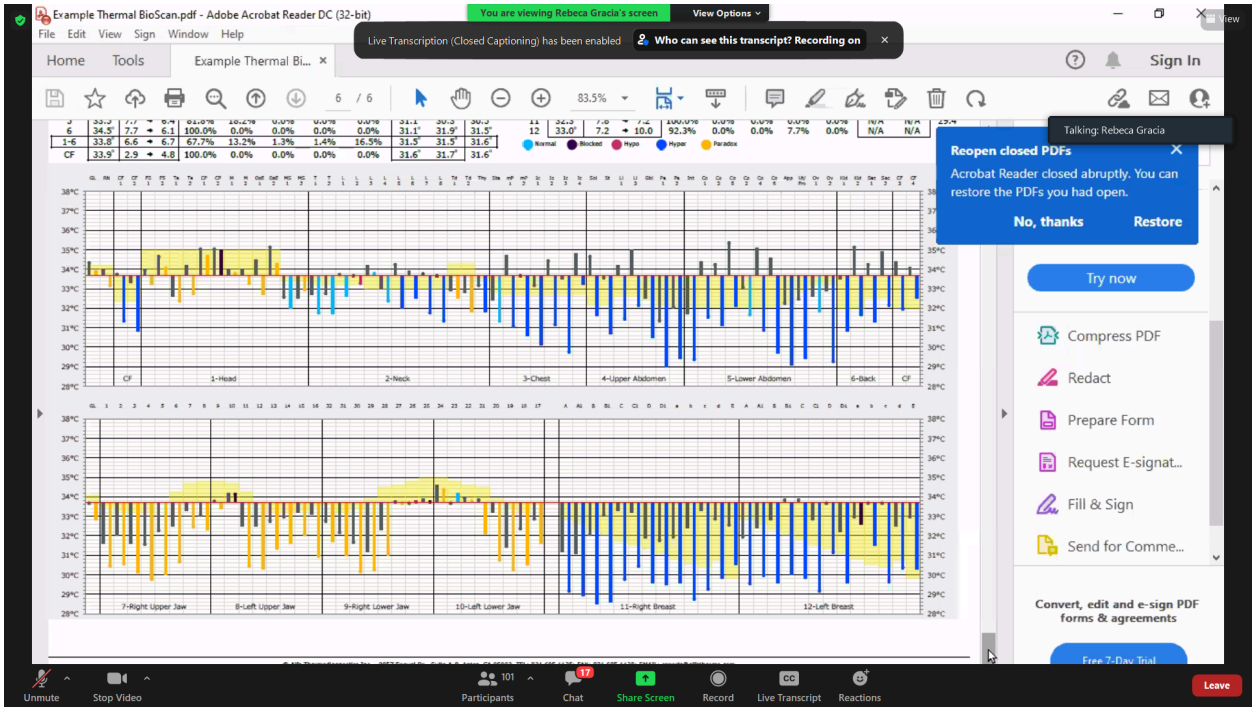
Rebecca Gracia & Thermometry





Purpose is to identify areas of imbalance due to toxins, etc.





A more indepth graph gives more information on a deeper level.

Q & A

1. Where are you located?
   Dallas, TX area

2. Would regular doctors accept the results of this test?
   This Thermometry is approved by the FDA, but it depends on the perspective of the doctor in question. She's willing to address questions by your doctor if she can talk to him/her.

3. What days will you be testing at the conference?
   Thursday-Saturday in the morning only, maybe a few on Sunday.

4. Does anyone do the same test in Vancouver, Canada?
   She does have a list of other practitioners in the US and Canada that is available online.
