THE RADQUEER COMMUNITY

Content warning! This involves child, animal and other sorts of sexual abuse being practiced and ecouraged by a huge online community trying to disguise itself as queer.

Adding this as an extra so i am not misinterpreted. The LGBTQIA+ has no relation to this, and neither do anti contact paraphiles. Having a paraphilia does not “make” you do anything, people have control over their own actions. The problem is those people knew they had a choice, and decided to harm others anyway.

The radqueer community is not a queer group or affiliated with the LGBTQIA+ community at all, and i would struggle to say it is a paraphile group either. It’s not related to/based on a trait people have no control over (such as sexuality or paraphilias), it is based off the choice to behave the way they do; it is based off a mindset and list of stances.

The main communities fighting against radqueers currently seem to be anti contact paraphiles, proshippers and antishippers.

⚠️Keep in mind there are a few folks in the community that do not practice those things and plenty of minors! Many people in the radqueer community are victims themselves. I will also not put much focus on transids as my main priority is calling out active ongoing abuse.⚠️

!This is ongoing work! I am still updating!

What you will find in this docs: key terms, whistleblowers, terms, general behavior and stances, flags, personal experiences from ex-radqueers and resources.

I’ll start explaining some key terms you might find if you do a deep dive:

pro para: propara meaning seeing people who have paraphilias as not inherently bad. (divided mainly between anti contact, neutral contact and pro contact.)
anti para: pro para means seeing them as lower and/or inherently dangerous. (typically strictly anti contact)

“contact label”- ‘contact’ means offending. Someone's ‘contact label’ is their opinion about offending. Anti contacts might call them contact stances instead, as we consider it a morality principle, not an identity.
Sub-terms:
-Anti contact (anti-c): very often, a pro para or a paraphile who is against offending (acting on paraphilic thoughts that go against consent). Non paraphiles can be anti contact.
-Pro contact (pro-c): usually a paraphile who thinks the offense at hand should be legalized and encouraged. Non paraphiles can be pro contact.
-Neutral contact (neu-c): “neutral” about offending. Endorse sexual offense and see it as a personal choice that is not their place to judge on.
-Complex contact (complex-c): usually a pro contact.
-”Pro consent, anti abuse”: pro contact. Of the opinion animals and children can consent, and in favor of “consensual” activity between those and adults/humans.
-Non contact: a pro, complex or neutral contact who personally does not offend for some reason, that often being fear of the consequences.

-Contact abolitionist: the belief that contact stances are outdated or inaccurate in some way (differs between individuals)
-Contact skeptical: basically the precursor of a contact abolitionist.

Radqueer (rq): “radically queer”. Radically accepting of any sexual activities and attractions- both harmless and harmful ones.
Post Radqueer: “even more inclusive and pro contact than radqueers”. Louder about being pro contact.
Other terms: radically accepting, really radically inclusive (do not confuse with radinclus. radinclus are not radqueer)
🍓🌈: radqueer emoji combo
🌈‼️: post radqueer emoji combo

Anti radqueer: people who are against radqueers for any reason. Also referred to as “ants”.

Transid: trans identities. Some of them are the tamest part of the community. ranges from harmless (transitalian, transtransgender, transcisgender) to dangerous (transgroomer, transnazi [check the tag reichblr on tumblr]). I will not get into those in this docs.

Terms That Didn’t Fit Anywhere
-Hazard consent: consent in regards to practices such as intoxication, somnophilia and potentially dangerous kinks.
-Restricted / limited contact: an anti contact paraphile who avoids their subject of attraction, even in contexts that are not sexual or romantic. (Example: someone who is attracted to minors and puts effort on actively avoiding being around/interacting with them)
-Consang/consanguineous: incest

THE BEGGINING
The radqueer community was coined by a pro-contact paraphile (it/its). It has still active accounts in which it goes on rants about how it should be legal to be sexual with children as young as babies. It is also the creator of the term “xenosatanism”.
It’s objective with making the radqueer community was to give a safe space for pro contacts/offenders, with focus on paedophiles, zoophiles, necrophiles and biastophiles.

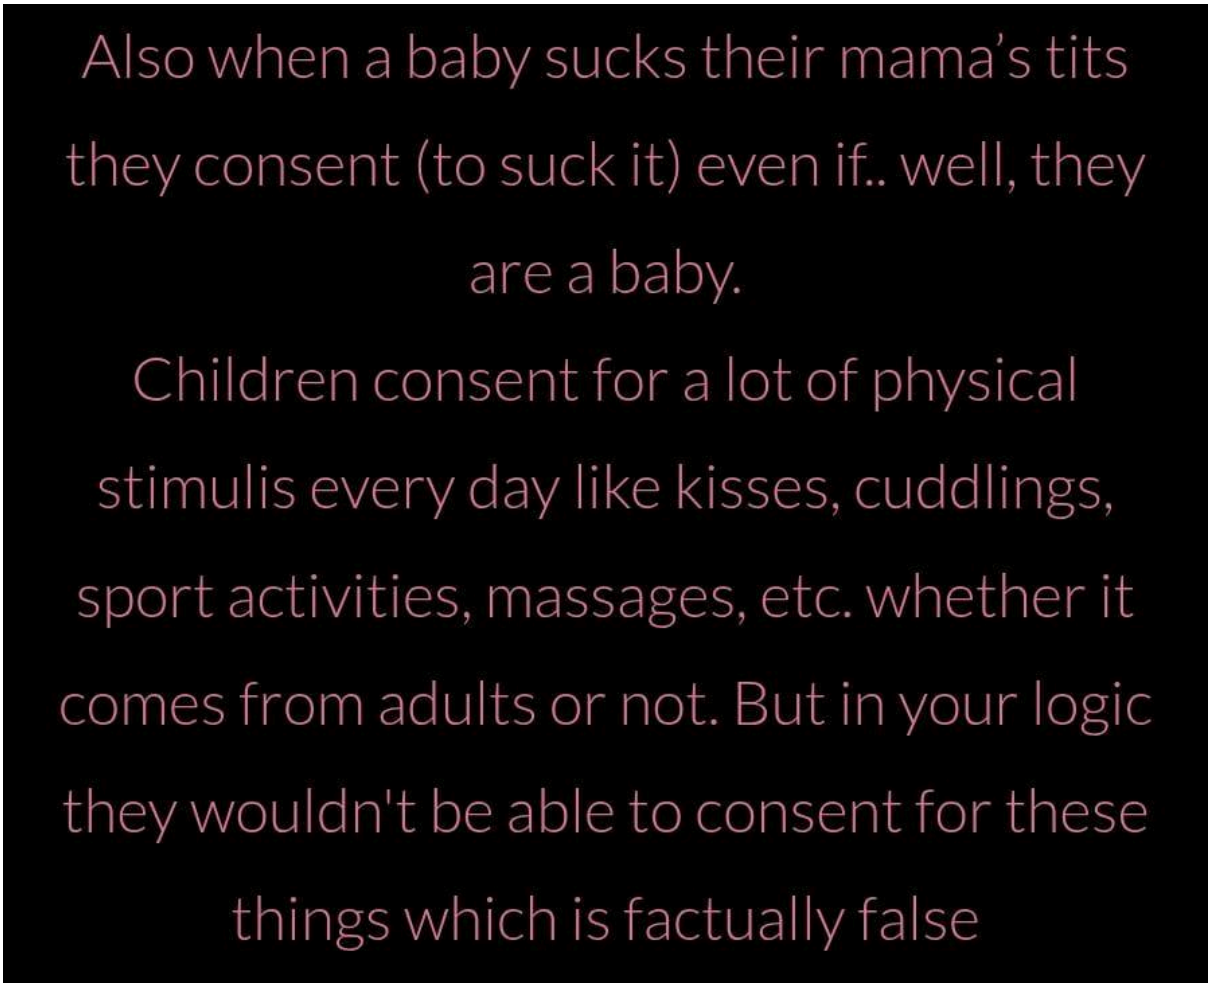
^The official xenosatanism carrd. Important detail, xenosatamism has nothing to do with satanism. Those are not the values of a satanist. To learn more, look into the official websites of any of the branches of satanism (such as The Satanic Temple).

Highlights from the xenosatanism carrd:

- Destigmatization and desacralization to some extent of rape, molestation, sexual abuse (bcs of a priori and retrospective harm induced by internalized social norms. Tho, we don’t want harmful rape to be fully legal)
- depending on the case, non-consensual but harmless sexual interaction should be legal, and not stigmatized



SOCIAL MEDIA

This is happening right under our noses. Social medias are not doing anything to deplatform these sorts of accounts. I have not checked any other social medias, but i did check the radqueer tags on Tumblr recently. These are some things i have found.

One of the most shocking was a teenager i found who is very active on the tags. I will not be showing an username for obvious reasons.

Age gap flag

A flag representing healthy & consensual age gap relationships. That even with our relationships having weird and harmful assumptions made about us, or our relationships being demonized, stereotyped, and considered weird or odd of even taboo by society; we are still happy, confident, and prideful of our relationships. :3

Flag loosely based off the AAM flag, though its not related to AAM unless you make it to be. (As i quite literally made this flag whilst being in an adult & adult consensual age gap relationship, me and my boyfriend have a 40+ age gap, me being chrono23 and him being chrono65).

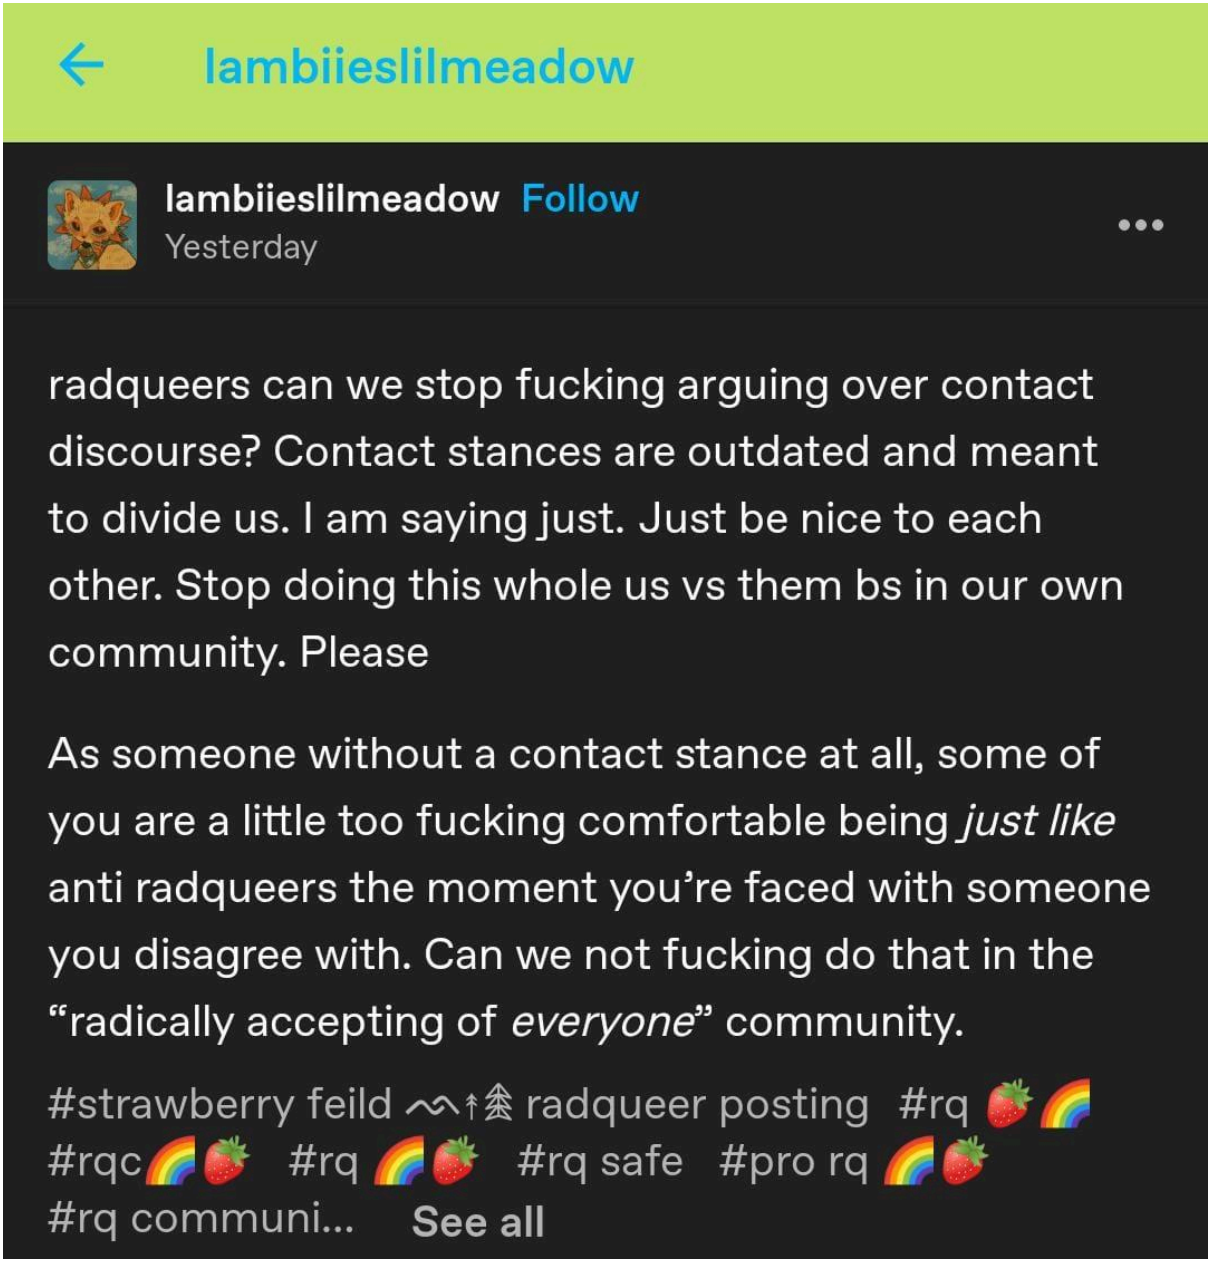
This flag is pro consent and anti abuse !

Here we have the term AAM used again. This is a flag for adult relationships with age gaps and “relationships” between minors and adults. “Pro consent anti abuse” throws back to the key term introductions: pro contact.

ANTI CONTACT RADQUEERS?

“Contact labels” are considered petty discourse in the radqueer community, instead of being seen as something serious and with the potential of destroying lives. There are a few “anti contacts” on the community, but a consensus is held that arguing over wether you find

child abuse, beastiality and other sorts of abuse wrong is something akin to biggotry.



The "being faced with someone you disagree with" meaning literal child abuse and beastiality- making the reproving of it extremely frowned upon. That's one context in which the cult mentality shows itself a lot, as if you question that rule, you will quickly be accused of

being an outsider and shunned into silence.

A FEW RADQUEER FLAGS

BEWARE OF THESE SYMBOLS

This is a compilation of symbols and flags used by pedophiles. Online pro-pedophile advocates are increasingly attempting to infiltrate LGBTQ+ spaces[1] and have created symbols to discreetly identify themselves to other pedophiles. **Anyone using these logos on their online profiles, posts, art, etc., is a danger to children.**

"BOY LOVER" LOGOS

attraction to toddlers, babies | *attraction to children* | *attraction to teenagers, adolescents*

The 'LBLogo' & 'BLogo' (left), 'GLogo' (below, center), & 'ChildLover' butterfly logo were first made widely known in a 2007 FBI document.[2] Variations on these logos, such as 'non-binary attraction' logos (lower left), have been developed in recent years/months.[3]

"ENBYLOVE" LOGOS

attraction to toddlers, babies | *attraction to children* | *attraction to teenagers, adolescents*

"GIRL LOVER" LOGOS

POST-RADQUEER: a term for when you have somehow moved beyond typical radqueer ideology in some way. maybe you're too pro c for them, or youre even more inclusive in some way. maybe you feel that most radqueers these days are too reactionary. if so, this is the term for you. this is a replacement term over ex-radqueer for beings who no longer vibe with the radqueer community but still support a lot of what they stand for. the emoji code is 🌈‼️

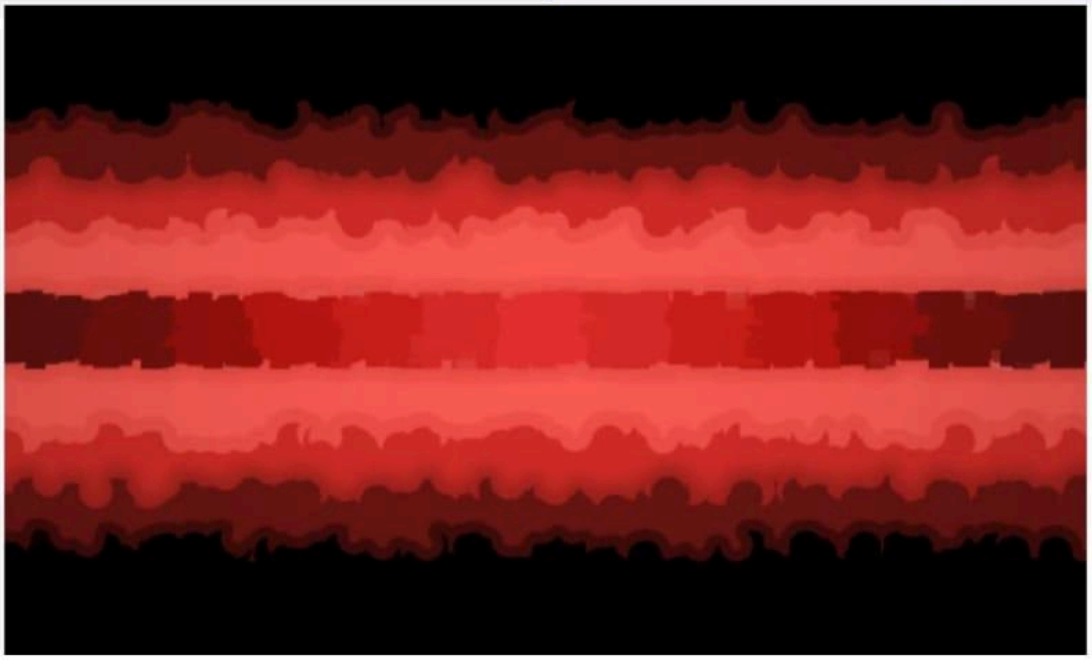
Numerous xenosatanist flags have been made, although information relating to their creators and creation dates have been lost. Xenosatanists may also identify each other with the symbols "ξ✡".

One flag was made made by an unknown individual on an unknown date.

Three flags were made by Nightmare on unknown dates.

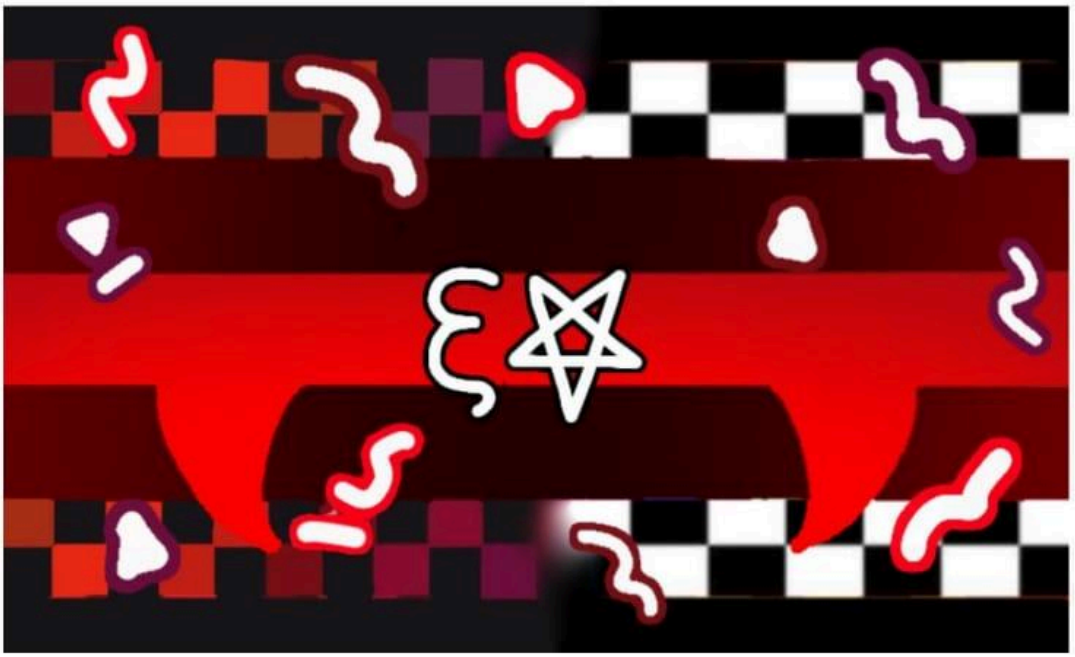
A flag was made by Boris on an unknown date.

A flag was made by [tojiqueer in May of 2024](#).



Three more flags were made by lucifer-xennock in June 2024.

Flags for open xenosatanists and closeted xenosatanists, respectively, were made by wolperhearts in August of 2024.



Another flag was made by nyugenns in September of 2024.

CULTURAL APPROPRIATION

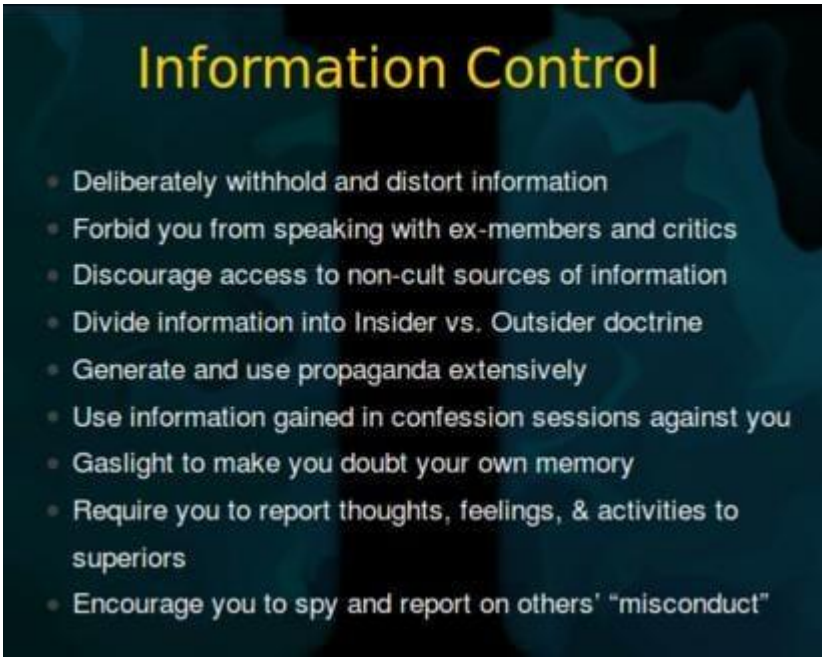
The term “transrace” originally referred to folks of one ethnicity that were adopted into families of another.

IS IT A CULT?

Here’s a first hand opinion of an ex-radqueer on this debate.
https://www.tumblr.com/radinclus-not-radqueer/727560013430882304/radqueers-are-a-cult?source=share

An unrelated ex radqueer has reached out to me to share the following concept in regards to the cult debate. (Anon) recieves hate asks on (Anon)’s tumblr blog ever since distancing from the community.

Behavior Control
Promote dependence and obedience
Modify behavior with rewards and punishments
Dictate where and with whom you live
Restrict or control sexuality
Control clothing and hairstyle
Regulate what and how much you eat and drink
Deprive you of seven to nine hours of sleep
Exploit you financially
Restrict leisure time and activities
Require you to seek permission for major decisions



Information Control
Deliberately withhold and distort information
Forbid you from speaking with ex-members and critics
Discourage access to non-cult sources of information
Divide information into Insider vs. Outsider doctrine
Generate and use propaganda extensively
Use information gained in confession sessions against you
Gaslight to make you doubt your own memory
Require you to report thoughts, feelings, & activities to superiors
Encourage you to spy and report on others' "misconduct"

Please, share this around if you can. The most people know about it, the best. Something needs to be done about this, preferably something involving the law. Online spaces can’t keep on being a place where you can commit serious crimes and not be held accountable for them.
