

**FAMP 1612 St. Joe's AI-** Steve Hoag, MD, Rachael Jones (rachael.jones@sjhsyr.org). This is a combination of inpatient (mostly inpatient) and outpatient and gives great exposure to the residency faculty, residents, and what it would be like to be an intern. Many times if you are not able to get into this through lottery, they are willing to work with you to find a spot. Contact Rachael Jones.

**FAMP 1615 preceptorship-**Heather Finn, MD, Meghan Bocyck (BocyckM@upstate.edu). Elective, NOT an AI-outpatient experience with a preceptor. Can be at Upstate Family Medicine Residency Site (Community Campus) as space allows (2 per block) OR students may find their own community preceptor. Community site allows working with multiple Upstate residency faculty and residents, and participation in lecture series.

Now 2 slots through elective lottery. Many times if you are not able to get into this through lottery, we are able to still fit you in, but you may need to help find your own preceptor, if Community site is full. Contact Meghan and myself, then sign up through registrar. If student needs help finding a preceptor, contact Meghan Bocyck to help coordinate.

-can customize to 2 or 3 credits if needed and approved by course director and coordinator

**FAMP 1652 RMED AI-**Lauren Meyer, Dr. Robert Ostrander (meyerl@upstate.edu). Rural setting, outpatient based, live and work in the community. Excellent, hands-on experience.

**FAMP 1654 Upstate Family Medicine AI-** Akifa Nazim, MD, Meghan Bocyck (BocyckM@upstate.edu). At Upstate Community hospital/FM office. Combination of Inpatient medicine service at Community hospital and Outpatient FM office (mostly Nappi, downtown, with a few sessions at Community with Dr. Bailey). Inpatient x 2 weeks, outpatient x 2 weeks. Students will attend the Thursday afternoon educational session with interns/residents including the wellness session.

**FAMP 1659 Wilson Family Medicine AI-**Binghamton Clinical Campus - Daniel Young, MD, (CCSTUAFF@upstate.edu). Mornings inpatient. Afternoons in clinic or didactics. Present topic weekly.

**FAMP 1607 Family Med Outpatient Clinic-**Binghamton Clinical Campus - Daniel Young, MD. (CCSTUAFF@upstate.edu)

1 AI is required. Does not have to be in Family Medicine but is encouraged to be

I encourage students to select one AI with inpatient experience to prepare for internship hospital service PLUS one outpatient Family Medicine elective to experience what it is like to be a Family doctor
