Table of contents

Acknowledgments **3**
Table of contents **4**
List of tables **6**
***feel free to remove if you have no tablesList of illustrations or figures** **6**
Abstract **8**
Introduction **8**
Subheadings should utilize heading 2 for accessibility (and should appear in the table of contents) 9
Materials and Methods **10**
Results **11**
Discussion **12**
AI statement **12**
References **15**

List of tables

*feel free to remove if you have no tables

List of illustrations or figures

Abstract

*summary of project and key findings (~200-300 words), include keywords

Introduction

*covers background, significance, and aims of the specific research project

Subheadings should utilize heading 2 for accessibility (and should appear in the table of contents)

Materials and Methods

Results

*(data presented in figures, charts, tables, or graphs may be embedded within the text in this section or included as data appendices at the end of the thesis)

Discussion

*(interprets the results and places them in the context presented in the introduction)

AI statement

*Please include a statement on whether any AI tools were used in the research or drafting of the thesis (or any part of the Honors process). If AI tools were used, please include a description of exactly how they were used, and how you ensured accuracy and ownership over the final product. We'll have examples in Bio199W for you to browse!

References

*A full reference list for the in-text citations should be included here (Vancouver style or similar is recommended). Utilize reference management software (i.e. Zotero).

Data appendices
*(figures, tables); these may also be embedded within the text.
