Humbleness:

Humbleness is one of the principal virtues, because the person who is able to overcome his self-delusion compulsion and his false self-esteem compulsion is capable of the humility only, which are the principal onto the ethical bad road seducer tendencies, and false self-esteem, false self-awareness, exaggerated self-evaluation are caused. Humility is one of the most important virtues, because it only has the ability to be humble, who is able to overcome his compulsion of self-deception and false self-esteem, which are our most important, morally wrongly tempting tendencies, creating a false self-esteem, a false self-confidence, an exaggerated self-esteem.
