Dixie First for Dixie's First!

House Minority Leader Seldom237 speaks to a Conference in Miami, DX

Seldom237 (R-DX-1) spoke to her constituents today at a conference in the Southern State, in a speech focused on values and the nation at large.

On a clear day, bright and warm, as was the norm in Miami, Dixie, House Minority Leader Seldom237 went to visit her constituents for a fundraiser/rally. A large crowd had turned out, enough to fill the entire convention hall her Congressional staff had booked out for her. With American flags decking the walls, and both conservatives and liberals in attendance, the meeting promised to be interesting. After running for Congress and being selected by a vote of the Republican Representatives as the one they'd like to lead the GOP Congressional delegation, Seldom237 right now has a large amount of control, especially in a House that is so bitterly contested. Only a few votes would be needed to sway control of the House and Senate, and with a Republican President in the White House, the position of each individual representative is very important in a House this close. With a smile on her face, and an American flag pinned over her heart, Seldom took the stage to make her case to the people who elected her.

Seldom237: Thank you all for coming out here, thank you very much. It's always good to come back to my constituency. Dixie, our Dixie, has never been more close to my heart then right now. This isn't my first time in the House of Representatives, but this is my first time since winning the election to Republican Party Chair that my fellow Republicans have tasked me with a leadership role. No matter the responsibility or weight that carries, I will never abandon the people that elected me. I promise you this, I will never sell out this district, this state, or these people, for anything. I promise, it will always put Dixie First for Dixie's First!

In the Southern State, we have served as the battleground for our nation's most contested ideologies. In each statewide election, the margins get slimmer and slimmer. The Republicans and Democrats in Dixie have been neck in neck for years. One party promises everything, promised a chicken in every pot, promised a state made free from want and fear. Tripplyons promised the people of Dixie everything. The Dixie Democrats put their trust in him to lead this state. Only after he'd won the election did he reveal his true intentions, and abandon the post. Make no mistake, Governor Tripp and the Dixie Democrats have betrayed the voices of their constituents. Our state has seen first hand the incompetence of the Democratic Party. We have seen them ignore the state, and they turn our elections into games for their own amusement. They have ignored the will of the people, and betrayed the purpose of our elections.

On the national scale, Democrats have left this country behind. They watch as society destroys itself, they attempt to deracinate the values we were raised on. The Democrats watch as liberty, patriotism, and the family are picked apart, one by one, as they wait for their socialist utopia to be born. They see the socialist parties that have gripped Europe like a vice as the next step in American politics. They fail to see that the people of the United States, of all states, not just Dixie, have fundamentally rejected that idea. Leftism, socialism, communism, all ideas abhorrent to the American people. We have rejected socialism. The world has rejected communism. Dixie, the time has come to reject leftism. The time has come to call it out for what it is. My fellow Dixians, it's time to unify our efforts. It's time to take our state back. In Dixie, we have two elected Republican Senators. One of them was elected as a Democrat. Since then, along with many of his constituents, he has defected to the party that actually knows how to put Dixians first. I may have run against him, but Jorgee has become an example of a fine Republican Senator. MrWhitey, our second Senator, is a former Republican Governor. The people of Dixie have now twice put their trust in this man on a statewide scale. In Dixie, both President Ninjja and President Adith have received the support of this state. Then-Senator Adith wouldn't have been President at all if it weren't for those votes.

Dixie knows how to elect Republicans. We do it all the time. Now, we just have to do it again.

My fellow Dixians, the Republican Party nationwide has been fighting for every inch in Washington. While we've won some important battles, we haven't won the war yet. Dixie, it's time for us to lead again. Lead the nation in making sure that our values are not trodden upon. Lead the nation in making sure our rights are protected. Lead the nation in ensuring that our children can grow up in a prosperous and safe nation. As one nation, under God, one and indivisible. For every American, of every background. Together, let's do something. In these upcoming federal elections, we need to do more than ever to ensure that our nation lives on. It's time to elect more freedom fighters, more defenders of the faiths, more of us. Republican or Democrat, we can come together around that agenda. Over the next few weeks, I will be laying out that agenda, an agenda for all the American people to support. We can do this together, all of us working as one, unified nation. When I became Vice President, and later a House Representative, I swore an oath to protect this nation and its Constitution. I need your help, and yes, I'll admit it, a few of your hard earned dollars to do that. It isn't called a fundraiser for nothing.

Together, we can make Dixie strong again. We can unify our nation, keep the Constitution as the supreme law of the land, and raise the Stars and Stripes higher than ever before. We will make sure that everyone can grow up proud of this country, and that no one is ashamed to stand for the flag. Liberty, freedom, justice, security, we can achieve all these things, if we just work together. It's time to make that future a reality. Together. Thank you all for coming, and I hope you'll vote for the DXGOP!

Seldom stepped off the stage to a round of applause, and spent the rest of the day coordinating future events with her campaign team and ALFU Event teams.
