Hi NAME,

You commented on my post about 65% recurring commission on a $77 offer.

A friend of mine Ivana created a plug in system that gives you DFY Marketing videos that create following on Instagram and Tiktok and turn that following into passive income. Here is the link that explains how it works: https://bit.ly/thefacelessdigitaltransformers

#4- when sending each message make sure you change it slightly. One word or two, add emoji. And break it into parts to make it look natural.

Here is an example:

If you've been thinking about creating an additional income stream
(without adding a second full-time job)…

…and you have very little time to work on a side hustle,

This is for you.

A friend of mine put together a done-for-you system that shows you how to grow faceless TikTok accounts:

no camera
no filming
no editing
no creating your own offer

Yet it pays passive, recurring commissions.

You simply post proven content and follow a simple routine
(about 45–60 minutes a day).

3–5k/mo without showing your face?

This is the easiest passive income system I've seen

faceless = freedom

Email:

Hey — quick question…

What if you could create a 3–5K/month passive income stream
without showing your face…
without being on camera…
without posting daily long videos…

There's a new method blowing up right now, and my friend Ivana created a plug-and-play system around it.

It's called The Faceless Digital Transformers, and the whole thing is built around posting 7-second faceless videos that attract leads even while you sleep.

No branding.
No talking.
No editing skills.
No showing your face.

And because the program pays 65% recurring commissions, you only need 50-100 people each month to build an extra 3–5K/mo.

I'll be honest… this is one of the simplest recurring income systems I've seen in a long time.

you don't need to show your face

faceless content = passive income

no more camera anxiety

Email:

If the idea of showing your face online has stopped you from building a passive income stream…

This will change everything.

You don't need to talk.
You don't need to record yourself.
You don't need to be "on camera."

7-second faceless videos are dominating right now — thousands of creators are using them to grow accounts fast and convert that attention into recurring income.

The best part?

Ivana created an entire plug-in system around this so you don't need to figure anything out on your own.

Inside The Faceless Digital Transformers you get:

✔ DFY faceless videos

✔ DFY captions
✔ DFY virals to copy
✔ Proven hashtags
✔ A simple 10–20 minute posting routine
✔ 65% recurring commissions

This is the simplest path to passive income I've seen.

the system that does the heavy lifting

recurring income made simple

Email:

You know how most affiliate programs pay one-time commissions?

That's the problem.

You're always chasing the next sale.

But with The Faceless Digital Transformers, the model is different:

⚡ 65% recurring commissions
⚡ Passive income once someone joins
⚡ A plug-and-play content system that grows automatically

You're essentially building a monthly income stream—like digital real estate—without doing the heavy lifting.

And you only need a small number of members to hit 3–5K/mo.

Everything is already built:

→ The training

→ The posting schedule
→ The content
→ The templates
→ The messaging scripts
→ The funnels
→ The support community

All you do is plug in the system… and promote your link.

Right now, members inside The Faceless Digital Transformers are already earning commissions — some even before posting content, just because tracking is set up properly.

People with no experience.

Busy parents.
