Priorities for zine printing

First of all thank you so much to anyone who is willing to help with printing these things! You are helping us save money on both paper and toner with any zines you're able to print.

I'd like to request that you prioritize the two longer zines because they take a lot more resources for us to print.

So perhaps aim to print at least 15 to 20 copies of:
We the People legal primer (it's 40 pages)
World Behind Bars (it's 34 pages).

And then if you must, you can print fewer of the other zines.

I'm not sure how many people are printing and how much print money you have left over. So please feel free to scale up!! Like if you get 20 of each of the long ones printed and then 20 of each of the short ones, then it would be great if you could circle back and print more of the long ones, etc.

Obviously we're grateful for anything you can print!!! So if my requests are making things too complicated, then print what you can and it'll be great!!!

Thanks so much!
