19. We found a way to _____ and build _____
20. Accept our neighbours' _____ (eccentricities)
21. To be less dogmatic and _____
22. To get _____ better with others

Coming home from work

The idea of left-overs is not appealing

You catch a whiff of red chilly baking

Imagine being left hopeless

Bedridden for 3 months

Community at its best

They took turns delivering me with home-made meals

They showered me with comforting words

You jointly own the community house

A feeling of belonging and mutual support

A spacious house with beatiful views of the mountain

Something was missing

I took the scary leap and bought a house

We range in age from 6 to 96

A pround and feisty English woman

She intended to live and die in her own terms

Any special wishes for her memorial service

We gathered around her

A flood of love and laughter

I'm dying; yet, these are the happiest moments of my life

It has its challenges

We struggle to reach agreements

The eventual outcome was...

A seemingly small issue

A community clothes-line

We found a way to compromise

Valuable interpersonal skills

To build consensus

Accept our neighbours' quirks (eccentricities)

To be less dogmatic and judgemental

To get along better with others
