

EMERGING INVESTIGATOR (EI) ABSTRACT SUBMISSION FORM

The EI conducted a Literature Review prior to the study on which the study design was based

- ☐ No
☐ Yes

Study Design

- ☐ No contribution by EI to study design, the study was already up and running
☐ A broader study was already running, but the EI designed the study from existing data fields
☐ The EI used a supervisor's pre-existing study idea and helped design the study, but required significant inputs and ideas from co-investigators
☐ The EI used a pre-existing study idea, but contributed significantly to much of the study design
☐ The EI conceived the most of the ideas for the study, with only minor advice from the supervisor/s

The EI wrote the Ethics Submission and any required revisions

- ☐ No
☐ Yes

Data Collection: Please outline the EI's contribution to all aspects of data collection

Please refer to 'How the Award is Judged' on the website for the criteria to be addressed. Please attach an additional page if you need more space.

Data Entry

- ☐ Pre-existing database and data and EI made no/small contribution to data entry/cleaning
☐ Pre-existing database, but EI entered <50% of data and cleaned it all
☐ Pre-existing database, but EI added additional fields and entered/ cleaned >50% of data
☐ EI created a new database with significant support and entered/cleaned <50% of data
☐ EI created the database themselves, with only minor advice from the supervisor(s) and entered/cleaned >50% of data.

The EI did all of the statistical analysis, with some help from a statistician/the supervisor (s)

- ☐ No
☐ Yes

The EI created all Tables and Images in the Abstract

- ☐ No
☐ Some
☐ Yes

EI (with some support from supervisor/s) interpreted all the data findings & drew own conclusions

- ☐ No
- ☐ Some
- ☐ Yes

This study is the subject of a higher degree (Please circle): No Yes

Please provide degree details:

Signature of Supervisor or Head of Department. Name _____

Signature: _____ / Date _____
