Jsrs Big List of Shows And Whatever For Reading

This is like a companion document that is ever evolving to categorize and examine the shows i have shot, and other things who want to do stuff good too.

Please inform me if i've made any mistakes, I don't know everything and I know that.

This is not comprehensive.
We are still building the historic archive from shows years 2021-2023.
We have not sorted the modern bulk 350GBs yet. In Progress (62/99 folders added to list)

If you see a show you played but you do not see your band listed, it's likely my shots were not even archival use acceptable, or that I was unable to attend your band's set specifically. Feel free to ask but it is unlikely there are photos to share.
