Privacy Policy for Collocation Mate

Effective Date: April 22, 2026

At Collocation Mate, we are committed to protecting your privacy. This Privacy Policy explains how we handle data within the Collocation Mate Chrome Extension.

1. Data Collection
Collocation Mate is designed to respect your privacy.
Personal Information: We DO NOT collect any personally identifiable information (PII) such as your name, email address, or physical address.
Anonymous Usage Data: We collect anonymous events such as search triggers (LOOKUP), save actions (SAVE), and refresh actions (REFRESH). These are linked to a randomly generated unique ID (UUID) stored locally on your device to help us improve the quality of AI suggestions.

2. Permissions Use
Storage: Used only to save your preferences, search history, and favorite phrases locally on your device.
ActiveTab: Used only to capture the word you highlight so that we can provide collocations for it.
ContextMenus: Used to provide a shortcut in your right-click menu for easier lookup.

3. Data Transfer and Third Parties
We do not sell, trade, or otherwise transfer your data to outside parties.
Your search queries are sent securely to our AI backend (OpenRouter/Vercel) solely to process and return collocation results. No data is stored permanently on our servers.
4. Manifest V3 Compliance

This extension strictly adheres to Google's Manifest V3 security standards. We do not use remote code or unauthorized tracking scripts.

5. Contact
If you have any questions about this Privacy Policy, you can contact us through our official support channel on the Chrome Web Store.
