Physics Grad School & Career Resources

- **LinkedIn/Resume resources** (shared by Career Services STEM advisor)
  - Slides from April 2026 Career Center LinkedIn/Resume event.
  - Spring 2021 LinkedIn/Resume/Network workshop recording and slides. The event provided tips about how physics majors can research roles they might be interested in using Career Center resources, create their resume and LinkedIn drafts, schedule a Career Center appointment, and network well. Written outline of the tips shared from this presentation is here.
  - Career Services Tips for Researching Career Paths for Physics Majors
  - Career Services Resume Writing for Physics Majors
  - Physics 2020 Career Guide (created by Student Services Staff). PDF also in folder.
  - Want to start a draft of your resume and LinkedIn profile? Browse this folder for resources that will help you get started. (Includes templates and checklists so that you can easily provide feedback on the resumes and LinkedIn profiles of your peers as well.)

- **Career Exploration Resources**
  - Where Do Cal Grads Go? Career Pathways Info Sheet
  - Spring 2023 Career Exploration Panel
  - Spring 2022 Career Exploration Panel
  - Dr. Ramesh discusses careers for physics graduates (Fall 2020 recording)
  - Spring 2021 Career Exploration Panel
  - Spring 2020 Career Exploration Panel
    (Note: Please do not contact panelists since one panelist could not sign the release form due to job policies.)
  - 5 Steps to Conduct Your Job or Internship Search (Career Center video)
  - Career section of Physics Undergraduate Wiki Page

- **Summer research (REU) and internship resources**
  - Fall 2023 REU/SURF Summer Research Program Info Session (hosted by Compass)
  - Fall 2021 REU/Pi2 Program/Summer Internship Panel
  - Fall 2020 REU/Internship Panel Recording
  - Prof. Wick Haxton's slides about summer REUs (Fall 2020)

- **Grad School Exploration Resources**
  - Spring 2026 Physics PhD Panel Notes
  - Spring 2023 Physics Grad School Exploration panel

Physics Grad School & Career Resources

- Approaching the Physics GRE (Slides from Astro event on 4/22/22)
- Spring 2022 Physics Grad School Exploration Panel (ft. Joelle Miles (Cal Physics grad advisor) and four current UCB physics grad students)
- Fall 2021 "Get Your Physics Grad School Questions Answered" panel (ft. Prof. Dan Kasen, Joelle Miles (grad advisor), and three physics grad students. Chat text from the event.
- Spring 2021 Physics Grad School Exploration Panel
- Fall 2020 "Get Your Physics Grad School Questions Answered" Panel Recording
- Current Physics grad student, Ella Banyas, recently shared her slides that include many helpful notes about the grad school application process. These can be found here**.** Notes include tips about how to apply to fellowships, writing a statement of purpose, preparing your application, and getting started on your application. Fall 2020
- Fall 2020 Grad School Info Session (hosted by STEM Career Advisor, Revae Hitt). Slides from this event can be found here.
- Spring 2020 Physics Grad School Exploration Panel Zoom recording
- Written answers to Physics Grad School Exploration Panel questions (by Andres Franco, Spring 2020)
- Advice about applying to Physics grad school internationally (by Namu Ramesh Spring 2020)
- Grad School Advising Document
