Steam 101 and Zoom: CC Meetings
Home Page: www.ccsf.edu/cc

Agenda • November 12, 2025

Opening Items

1:30 Call to Order, Member Sign-in, and Land Acknowledgment statement

1:33 Announcements and Public Comment

- Welcome to Steam 101 and on Zoom for a hybrid experiment
- The 12/10 meeting will be a hyflex from SSC 2122; it will also be a potluck party
- **See the November 2 updated expiration sheets. Download your own copy!**
- Counting today's meeting, the Curriculum Committee has reviewed/approved around 800 items this semester, and there's more work to do. If you're an originator who has received feedback, please respond to the change request, hit the changes made button and then hit the Commit button. Thanks.
- Try the revised Down and Dirty COR Checklist when writing, revising, or reviewing a course, if you would like a change from the TRACE/Crib.
- How much have you played with Maverick?
    - Have you watched the short movie? Have you tried refining a search by using the output fields? That will display under-the-hood details. If it's useful, save it to your My Searches so that you won't have to rebuild it.
- If you're just now starting to modify course outlines (and DEA) or will be later this semester, the effective date should be Spring '27.
    - Program outline modifications should have a Fall '27 effective date, as program modifications cannot have a spring date. That would create confusion in the catalog.
- Maverick's "Clone" option should only be used when changing a subject code and/or course number and retaining the bulk of the replaced outline's content. Check with Cr🔍 before using.
- Please see the final Title 5 revisions for course outlines, effective 10/24/25. As anticipated for nearly a year, and as posted regularly in this section of past CC agendas, procedures must be in place to strengthen ways to reach diverse bodies of students and to improve accessibility.
    - What will your department do when reviewing and producing course outlines to strengthen these considerations of diverse students?
- The CC still welcomes new members, especially counselors, librarians, and STEM faculty.
- If you're dealing with academic integrity and/or plagiarism issues, here's a friendly reminder about #8 in the Student Code of Conduct.
- The CC will likely discuss microcredentialing and badging w/ John Halpin at the 12/10 meeting.
- Craig gave a presentation at the 11/6 Deans and Chairs meeting to discuss membership recruitment, curriculum management, Maverick, and upcoming CCN and Title 5 work
- Who will be this week's MapQuest Member of the Meeting?
- Events?
