What Is ExpertVerse AI?

ExpertVerse AI is an all-in-one AI course and coaching platform. It builds complete video courses from just a topic, then turns the user's selfie into a live AI tutor that teaches every lesson, answers student questions in real time, and runs paid one-on-one consultations - 24/7, without the user ever going on camera again.
It works for existing tutors and coaches, brand-new experts, and even people who have never taught anything before. Your subscribers get a ready-made education business they can sell from day one.
