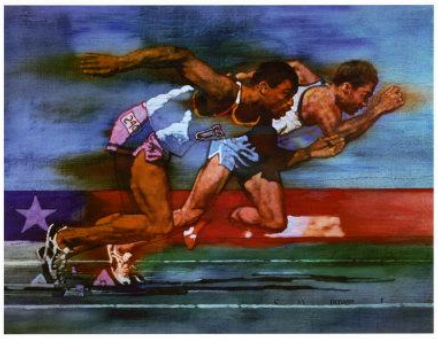
Let's Get Started



To do well on this project follow these step by step instructions!
OVERALL OBJECTIVE: Students will be able to collaborate in a group to create a podcast describing American efforts during WWII. The genre of the podcast will be a commercial/service announcement.

To start- Choose your top three so that when we assign all of the home front efforts you are ready to begin if you did not get your first choice.

1. Women working in factories
2. Recycling
3. Victory Gardens
4. Rationing
5. War Bonds

Resources for the above topics are vast, a quick google search will bring up many websites. You are **required** to use resources other than your textbook. I have included a list of possible resources. Your resources must be approved by me before you begin your project.

1. Library of Congress: http://www.loc.gov/exhibits/treasures/trm184.html
