Researcher-Initiated Student Employment (RISE) Application

Project Title
PI Name

Please fill out the following fields such that the final document is no longer than 2 pages. Feel free to delete the prompts below to make more room for your application materials!

Project Description.

- Please describe the research question or motivation for creative scholarship that will drive this project.
- What is the methodology that you and your student will use to address this research question?
- Please describe specifically what your student researcher will do to help advance your research.
- Please let us know the estimated start and end dates for your project. Projects do not need to occur within a single semester but should be shorter than one academic year.

Budget.

How much will you be contributing towards this project and how will these funds be used? OUR will provide three times this amount for student salary up to a total match of $3000. OUR funds can *only* be used for student salary. The mentor's match should be spent during the time of the student's employment and in support of the student's project.
