Abstract

Full papers accepted for the Human–AI Futures in Higher Education (HFHE 2026) Conference will be published in the conference proceedings. All full paper should contain the essential sessions including Abstract, Keywords, Introduction, Materials and Methods, Results and Discussion, Conclusion, Acknowledgement, and References. Please do not use abbreviations or cite references, and figures or tables in the abstract. Please note that the length of the full paper, including figures and tables, must not exceed 10 pages. The figures and tables should be prepared by using the suggested text box below (Authors may copy and paste your text in this template file directly). To avoid the formatting errors, please prepare each figure including all labels as one image file. List of reference must be prepared according to the indicated format in section "Reference". Please prepare your abstract file using the Microsoft Word version 2010 or above. (Times New Roman, 10pt)

Keywords: Please provide up to five keywords, separated by semi-colon (;) (Times New Roman, 10pt)
