School Mission

The mission of Patterson Elementary is to cultivate life-long leaders and learners. Students will reach their highest potential as creative problem solvers, compassionate leaders, and changemakers. Based on students' needs, researched best practices, and results from assessments and surveys, differentiated instruction will improve student achievement in an innovative and collaborative environment. Students are empowered to advocate for their own education and be responsible for their academic, emotional, and social growth which prepares them for the challenges of living in a fast-changing world. Mutual respect for our culturally diverse community is established through effective communication between families, students and staff.
